### Star Wars: Shadows of the Empire

Comics return to Nintendo Power! This month, meet Dash Rendar, intergalactic star of the NG4.

24

# PLAYER'S PULSE

**The Star Wars: Shadows of the Empire comic starting on page 24 is the first comic to grace the pages of Nintendo Power since Metroid in Volume 61. What do you think of this three-part series and about comics in general? Send us your opinions pronto!**

## Comes Relief

I have been a subscriber for about a year now and I like the changes you have made. One change I do not like however is the cover. I like the glue binding better because my magazines with staples in them tend to fall apart, I also noticed you cut down on pages, I don't like that either. And last but not least I think you should bring back the comics, they were cool.

**EW Barry**  
Nevada City, California

Thanks for the suggestions,  
EW Flip to page 24 for a  
"cool" surprise.

## Investigate Beth

I just got Super Mario RPG for my birthday and it is great! The battle modes are so easy to comprehend that my 5-year-old brother plays like a pro. The countless mini games, great graphics, hidden treasures, and numerous jokes about Mario's mustache give this game the highest replay value of any RPG, even Chrono Trigger. Thanks for such a hilarious game, you rule!

**Anson Davis**  
Spring, Texas

## You Tossed a Spell!

First, I would like to say that I thoroughly enjoyed the Classic Epics in Volume 87 and I especially liked the fact that Crystalis was reviewed since it is, after all, the best game ever made. But I was rather shocked to learn that you claimed that "It all started with Zelda." That is not true. PCs had RPGs long before Nintendo even made Donkey Kong! But even more than that, you were neglecting three games which were really important to the RPG history of Nintendo. The first two were what really started the

trend from mindless action games, up the ladder to

more complex games.

The first being Solomon's Key. This game had over 100 rooms, all of which were startlingly different. That added with the fact that it had two different endings made this a HUGE

leap forward from the regular games. Also, you didn't mention Rhygar, which was the first game on the NES to introduce dual perspectives (Bird's Eye view and side view). It also had an experience system which wasn't truly matched until Dragon Warrior. It also introduced the concept of magic aiding battle. And the last, Magician, was thoroughly forgotten.

Anyway, I've said my piece. If you will, could you provide reviews on these three off-neglected

games in a future issue? I'll be watching.

**Chris Schumacher**  
via the Internet

The games you mentioned are all classics by definition but none of them can be called an epic without raising an argument. And, according to this next letter, neither can PC RPGs Oh, and by the way, Solomon's Key has three endings.

### Epic Baning

Recently, games like Eye of the Beholder have been getting into Epic Center. What do they have to do with epic games? They are just boring mazes.

**Devin Anderson**  
via the Internet

### Psyche Souffle

Yes, I love your magazine and all but you print Waaazayyyy too much info on the N64. My brother and I probably won't get it until Christmas and showing us all this coverage on the N64 will just rip our psyche to shreds!

**Gregg Fuller**  
via the Internet

*You should feel lucky Gregg, imagine all those poor fans who won't be getting one this year at all!*

### Let's Argue, Shall We?

I would like to see more arguments, such as the dispute over Sarah LaBrie's letter about girls in games. I thought it was very interesting hearing about other people's thoughts over that issue. I might like to start an argument over people asking you to put reviews of arcade games in your magazine. This magazine is about Nintendo products

I mean that's why you started this magazine "NINTENDO POWER" not "NINTENDO POWER AND A FEW ARCADE GAMES POWER."

**Ryan Coulton**  
via the Internet

### Download the Goods

I just wanted to say that the Nintendo web site is GREAT except for one thing: No videos! It would be a lot better if it were possible to download videos of games on the web site.

**Sébastien Rossignol**  
Québec, Canada

### Who Cares?

I would like to say that I am sick and tired of people writing letters about wanting the old manila folder background in Classified Information. What difference does it make what the background is? Even if the background was pink it would still have the best information on all the games. What are you more worried about, the background or the information?

**Mike Stewart**  
Mt. Morris, Michigan

### More or Less?

I just wanted to say that Super Mario 64 at E3 was most impressive. DKC 3 and Kirby Super Star looked great, too. But Game Boy Pocket? What's the point? Who's really going to shell out more dollars for something that's a little lighter and smaller?

**Richard Caywood**  
Colorado Springs, Colorado

*Lighter, smaller, and most importantly an improved screen with higher contrast!*

## A Whole New World

When I first saw pictures of Mario 64, I was skeptical. I didn't think it could be that good. It was not until I played it that I was truly blown away. It was like I was in a whole new world, I could do WHATEVER I WANTED! It was incredible! I couldn't believe my eyes, and I never wanted to leave the world of Mario 64, but the Nintendo official ended up pulling me away so others could try. The very next day I went to a local video game store and reserved my own copy of Nintendo 64. I cannot wait until September 30th, school or no school, I cannot wait! Well done Nintendo!

**Craig Sutherland**  
via the Internet

Hey Craig, take note: The launch date has moved up to Sunday, September 29th! Don't expect Mario to write you a note if you play through school on Monday!

## RETRACTION

**We goofed!** In Volume 88 we told you that your N64 would not be packaged with an A/V cable for connecting to your TV. Well, we take that back. Now even those of you who don't own a Super NES and the A/V cable that came with it will be able to hook-up hassle-free. See this month's Pak Watch for complete hook-up instructions.

## Going for the Gold

Volume 84 Grand Prize Winner Kris Lehman of McAlester, Pennsylvania, took a once-in-a-lifetime trip to Atlanta to witness a once-in-a-century occurrence. Kris and his mother Dianne took part in the opening ceremonies of the Centennial Olympic Games and hung around town for four more days of basketball, rowing, and gymnastics galore. Between events Kris partied at Hard Rock Cafe and visited the Nike complex, where he measured up to some of the world's best athletes.

That's a right!  
The N64 does  
come with  
an A/V switch.

# FIGHT ON!

The folks at Williams have outdone themselves in porting over *Mortal Kombat Trilogy* to the N64, even ramping up the graphics and special effects in the process! Awesome new fea-

tures make this Mature-rated game (recommended for players 17+) a fighting tour-de-force. We'll open with a brief run-down of what's new before we dig into the meat of this latest chapter in the MK saga!

## AGGRESSION

The Aggression meter will tell you who's takin' a lickin' and who's still tickin'. Fill 'er up for a Shadow move payoff...and maybe something even better!

## BRUTALITY

You knew it was only a matter of time before the game gods at Williams would add yet another -ality to the list of outrageous *Mortal Kombat* finishing moves. With the new Brutality in your repertoire, there won't be enough of your opponent left to fill a doggy bag!

## TAG TEAM

The new 2-on-2 and 3-on-3 *Kombat* options allow up to six players to take the controls in a totally raucous tag team endurance match! These modes play just like the endurance rounds seen in the one-player tournament, except that both sides are allowed

to select multiple combatants. You can mix and match your fighters to counter any threat to your supremacy.

## 27 BATTLEFIELDS

All your favorite MK, MK II and MK 3 battlefields are here, boasting more detail and more animation than ever before. There are also several new arenas in which to host your deadliest bouts.

# FIVE NEW KOMBATANTS

You may have fought some of them before, but now you get to be them! Five fighters join the ranks of the selectable kombatants, including fan faves Noob Saibot, Rain and Ermac. Some fight for the forces of good, some battle for the hordes of evil. Which side are you on?

Are you a good ninja or a bad ninja? It's a good thing they have different colored costumes, or we'd never know who we're battling!

## TOURNAMENT

Looking for a really good fight? Now you don't need a code to find out which one of you is truly the best of the best. The Eight-Player Tournament mode will allow you and your opponents to fight for the title in a simple elimination competition. If you take the top spot, you may also take home a juicy reward...if you choose wisely, that is!

## MK CHRONICLE

Since keeping track of all the MK games is likely to make your head spin, we've charted the changes the series has gone through over the years. Only one bonus character in the original MK? It's almost inconceivable!

	Characters	Bonus Characters	Fatalities	Animalities	Babalities	Brutalities	Friendship	Kombinations	Running	Kombat Codes	Multi-level Stages	Tournament	Endurance Rounds
Mortal Kombat	7	1	Y	N	N	N	N	N	N	N	N	N	Y
Mortal Kombat II	12	5	Y	N	Y	N	Y	N	N	N	N	Y	N
Mortal Kombat 3	14	1	Y	Y	Y	N	Y	Y	Y	Y	Y	Y	N
Mortal Kombat Trilogy	26	2+	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y	Y

# MORTAL AI

The MKT artificial intelligence is tough, but you can take advantage of a couple of patterns on the low to middle difficulty levels. The computer-controlled characters sometimes operate in a "my turn, your turn" mode, where they'll attack and then pause, giving you an opening. Your opponents may retreat if you attack during a pause phase, but they won't respond until it's "their turn." Opponents may also let themselves be hit by a particular attack or respond to it in the same way for most of a round. You may be able to knock someone down to about 40% energy before they start blocking that attack.

# MORE-TALITY

The Aggression meter works like the various power bars in other fighting games; the more you hit your opponent, the more energy you store up. Normal punches, kicks and combos (not special moves) work best. Once your meter is full, you'll begin to "shadow," and you'll be able to pull off some extra-special moves. As for the new Brutality, just punch in the proper control sequence while your opponent is reeling, and you'll unleash a storm of kicks and punches that will eventually reduce your victim to a squishy pulp! Can you say, "food processor?"

LIO KANG WINS  
**BRUTALITY**

# TOURNEY

MK offers the career kombatant more multi-player options than any previous MK title. You can set up multi-player challenges any way you want to prove once and for all who's the King of Pain or the Diva of Damage. C'mere!

## ENDURE THIS!

The 2-on-2 and 3-on-3 Kombat options allow players to go to the mat in a tag team endurance match.

Each player chooses two or three characters. If one character is defeated, the next takes over. Each round continues until all the fighters on a team are history. If one of your buds is an expert with a certain fighter, pass off the controller to him or her when that fighter's turn comes up. This way, up to four or six players take part in the match, depending on the option you choose.

## TOURNEY TERROR

If you're skilled (or foolhardy!) enough to stand on your own, you can plunge into the Eight-Player Tournament option. This pits up to eight brave souls against each other in a simple elimination tournament. Eight become four, four become two, and then the final duo battles for the right to choose a "reward." This is not without risks, though. Depending on the Kombat Kode symbol you select, you may be shown a display of Fatalities, have your future foetold, or be given the "honor" of battling the worst of Shao Kahn's minions in an ultra-tough endurance round!

MOVE DO MOVE DO MOVE DO

YOUR REWARD IS THE OPPORTUNITY

DEFEAT YOUR OPPONENTS!  
FATALITY DEMONSTRATION ONE

ENDURANCE ROUND  
ENDURANCE ROUND  
A AAAAAAAAAA

YOU HAVE DISCOVERED THE LOST TREASURES  
OF SHAO KAHN!  
CHOOSE YOUR REWARD WISELY!

# NEW MOVES

Even old kombatants can learn new tricks. Rayden's Reverse Lightning blast will fly off the screen and crash into your foe from behind, while Baraka's Whirling Blade attack (which began as a glitch in an earlier MK game) makes its official debut here. Even some combos have been tweaked, including Sonja's six-hit head buster, which now has a nasty juggle thrown in for added abuse.

# KOMBATANTS

They're mad, bad and dangerous to know! Here are the newest Mortal Kombatants, complete with their signature special moves. Will you tap an untired fighter, or will you stick to an old favorite? Make your picks and take your chances!

## RAIN

Once a fugitive from Shao Kahn's extermination squads, Rain has betrayed his world of Edenia and himself by agreeing to fight on the side of evil.

### LIGHTNING

Turn on the power by pressing Back, Back and High Punch. You'll call down a bolt of lightning from the heavens to shatter your opponent's dreams of victory. With power like that, it looks like you could give Rayden a run for his money!

### TRACTOR

Rain's Tractor Fireball is one of the best new moves. Press Down, Down/Forward, Forward and High Punch to toss out a cool, blue fireball. Once it strikes its target, you'll be able to move your opponent around via the Control Pad. Set 'em up and knock 'em down!

# JADE

Jade has been ordered by Shao Kahn to bring the treasonous Princess Kitana back to Outworld. She will be forced to choose between betraying her childhood friend and her emper.

## BOOMERANG

Jade's razor-sharp Boomerang can hit any part of a challenger's body. Press Back, Forward and then High Punch, Low Punch or Low Kick to target the head, body or legs of your opponent. Hello, viewers!

It's slice and dice time with your favorite ninja chef, Jade!

## GLOW KICK

Cruise into action with this powerful sliding kick. Press Down, Forward and Low Kick to set yourself in motion. The only problem with this flashy move is that once you execute it, you'll be in a stall for about two seconds. If your intended victim successfully blocks your attack, you'll be in for a world of hurt, for sure!

## INVINCIBILITY

This defensive move will render you invulnerable to projectile attacks. Press Back, Forward and High Kick to activate it. It will force any no good, fireball throwin', from-across-the-room-spear-hurlin', can't-take-it-on-the-chin-foe-nothin', current and former Lin Kuei ninja types to finally get up-close and personal!

# ERMAC

The origin of the brooding warrior known as Ermac remains shrouded in mystery. Rumor has it that he is the embodiment of the life forces of three slain warriors, brought back from the nether regions and fused by Shao Kahn's foul magic.

## TELEPORT PUNCH

Press Down, Back and High Punch to disappear in a ball of flame, only to reappear on the opposite side of your hapless foe and deliver the mother of all sucker punches! It's a quick move and very tough to counter, even when it's expected.

## FIREBALL

If there's anything the "mysterious ninja" knows how to do, it's throw a good Fireball! Press Down, Back and Low Punch to try out Ermac's pulsing, emerald green version of this perennial MK favorite.

# NOOB SAIBOT

Noob Saibot is one of the Brothers of Shadow, dark warriors who serve a fallen elder god in a dimension far beyond the borders of Shao Kahn's realm. His mission is to observe the conflict between the Outworld and Earth and report back to his ominous lord.

## GHOST FIREBALL

Press Down, Down/Forward, Forward and Low Punch to unleash a seething cloud of negative energy that will engulf your opponent. We must admit, *had o'* Noob makes the old seem new (and cool) again.

## BODY DOUBLE

Double your pleasure and double your fun by pressing Forward, Forward and High Punch. Your double will grab your opponent and toss him or her back over his head—right at your waiting fist!

## TELEPORT

Press Down and Up for a quick shift in your priorities. You'll shoot up off the screen and literally pop up somewhere else. If you're on target, you'll grab your opponent and give him or her a face-to-face introduction with the cold, hard floor!

# SMOKE

Betrayed by the Lin Kuei, Smoke has become their third cyborg assassin, charged with seeking out his former friend and ally, Sub-Zero.

## TRIDENT

Mimicking the Spear move he used when he was fully human, the cyborg Smoke now uses a high-tech Trident instead. Press Back, Back and Low Punch to cast your line and reel in your prey. Be ready with a combo or a quick uppercut to turn your opponent into fish bait!

## INVISIBILITY

This trick is only for the cleverest cyborgs. Not only will your opponent not know where you are, but you often won't know where you are, either! Press and hold Block (optional) and then press Up, Up and Run to become invisible to the naked eye and all enhanced cyborg senses.

# WAVE RACE 64

KAWASAKI JET SKI

Forget Bay Watch. Once Nintendo's Wave Race 64 hits the video beach this fall, the best seaside action on TV will be found on the Nintendo 64.

There's never been a game that looks or feels anything like this: realistic wave action, dynamic control, stunning 3-D courses with graphics effects that rival reality. Whether you're racing for the championship or hot dogging for stylin' points, Wave Race 64 delivers fun, sun and thrills. Get set for a teeth-rattling Tour de Surf in the next four pages. As for the Japanese screen text, we just couldn't wait for the translation. Next month, we'll have it all for you.

## LOADS OF MODES

How many ways are there to play? Let me count the waves. You can race for the championship, challenge a friend, master acrobatic skills or set new time records. Wave Race 64 also contains three levels of difficulty and Dolphin Park, where you can practice your wave-hopping without clocks, judges or opponents to stress you out.

### TWO FUN

Who rules the waves in your house? There's only one way to find out. Plug in two N64 Controllers and select the Two-player Mode for a match race to determine the best in your nest. Each player chooses a jet ski, you each spin a course, then the race begins. The vertically split screen shows the watery course—times-two with all the 3-D details intact. You can even set a handicap to even things up between beginning and advanced riders.

# LIVE AND LEARN

## DOLPHIN PARK

As you zip about on the waves of Dolphin Park, perfecting your acrobatic skills and general skisanship, you'll notice friendly dolphins racing ahead of your bow. No, you can't hit the dolphins! They are too quick and they don't trust crazed jet skiers at all.

You'll find jumps and obstacles in the park that you can hit, though, and in the case of the jumps, it's actually the right thing to do. When you've caught enough air, try racing at full speed through the arch of rock, or diving underwater after a jump. Once you feel confident on your fiberglass rocket, launch into one of the competition modes.

# JAMMIN' JET SKIS

The four sleek and powerful Kawasaki jet skis in Wave Race 64 features unique driving attributes, which are determined by the combination of the rider and the machine itself. Players can

adjust three settings: handling, engine and grip, then save the custom settings in the Controller Pak so they can take their own setup on the road to play on someone else's Game Pak.

For the ultimate racing challenge, enter the Championship mode and jockey through three circuits: Normal, with six courses, Hard, featuring seven courses, and Expert, in which you battle it out on eight courses. You earn points depending on your finishing position, then advance to the next race in the circuit. Below,

you can see the variety of the race courses. There's something for everyone, from saltwater surfing to urban trowling. Every course has marker buoys that you have to pass on the left or right, so it's like a slalom at high speed.

## SUNDAY BEACH

The straps are long, but the buoys will keep you wiggling through the waves on this sun-drenched race course. The sandy beaches are forgiving if you lose control and skid up onto the land.

## SUNSET BAY

The stunning graphic effects of the N64 lend all of the courses a sense of reality, but the low, glaring sun reflecting off of Sunset Bay may be the most impressive game graphic effect ever. The course is choppy with tight turns that will keep you swallowing saltwater as you squat into the setting sun.

## MILKY LAKE

It's a peaceful morning. Trout swim by in the clear, inland water. Suddenly the quietude is ripped apart by four maniacs in wet suits and helmets cranking thunder from their machines. As they surge forward, churning the glassy waters into a boiling froth, they catch sight of pylons sticking out of the course ahead and narrow, twisting channels.

## PORT PIRATES

This bustling port is no place for timid riders. High tides, a narrow passage through a ship's hull and wrenching turns will test every rider to the max. You'll

find jumps and obstacle buoys, as well.

## CASTLE CITY

Surging breakers crash on the rocky shore of Castle City, tossing riders and jet skis into the air. A shortcut through the city can give you the edge in competition, but don't try it during a Time Trial. Prepare to be punished.

## TIME TRIALS

The Time Trial mode gives you the chance to post speed records on any of the courses that you have reached in the Championship mode. Without other riders on the course, though, you'll have to push yourself to the limit, shaving off precious seconds wherever possible. You can save your best time on the Controller Pak and take it to a friend's house for a Time Trial competition.

## AQUABTICS

In the stunt mode, players shoot for high scores by performing amazing feats of balance and dexterity while racing along at high speed. With a little practice, you'll be able to twist your jet ski in the air, dive it under the waves, perform barrel rolls,

flips, handstands, spins and other special moves. The course is marked by hoops and timed stages. Your score is determined by the number of stunts you perform and how quickly and accurately you ride through the course. This is one time when showing off really counts.

# STAR WARS

## SHADOWS OF THE EMPIRE

What follows is a chapter of the Dark Horse Comics' graphic-novel epic, *Star Wars: Shadows of the Empire*. Dark Horse has been publishing original *Star Wars* comic books and graphic novels since 1991, beginning with *Star Wars: Dark Empire*.

Dark Empire presented an entirely new approach to *Star Wars* comic-book adventures. As opposed to earlier comic-book adaptations, Dark Empire closely followed the tone and style of the *Star Wars* novels. Tom Veitch's story tied directly into continuity previously established in the books and motion pictures, and it brought a sense of majesty and grandeur unseen in earlier *Star Wars* comics. Additionally, Cam Kennedy's artwork set a new standard for the medium, with his vibrant colors and painstakingly detailed machinery.

*Star Wars: Shadows of the Empire* picks up after *Star Wars: The Empire Strikes Back*. The Rebels are on the run after the Empire smashed their base on the ice-planet Hoth. The dreaded Galactic Emperor Palpatine schemes to deal the final blow to the Rebel Alliance. Luke Skywalker, reeling from Darth Vader's revelation on the cloud city of Bespin, ponders his own destiny and that of the Rebel Alliance. Meanwhile, Leia, Lando and Chewbacca search for Han Solo, captive of the notorious bounty hunter, Buba Fett.

Since the release of that first successful series, Dark Horse has continued to produce new *Star Wars* comics stories. You'll find them at your local comic-book specialty store (phone 1-800-266-4226 to locate a store near you), or you can order them directly from the publisher by phoning 1-800-862-9052.

I CAN'T SAY I'M HAPPY ABOUT PUTTING OUR FATE IN THE HANDS OF A MERCENARY LIKE DASH RENDAR.

DASH? AN HE'S OKAY. HE'S NO FRIEND OF THE EMPEROR, ANYWAY, AND HE DID SAVE A GOOD ACCOUNT OF HIMSELF FOR THE ALLIANCE ON HOTH.

WE USED TO DO A LITTLE SWAGGLING IN THE OLD DAYS—GUESS DASH NEVER GOT OUT OF THAT LINE OF WORK. THAT'S HOW HE KNOWS THE SET-UP ON GALL.

SOMETIMES I THINK HE'S A LITTLE TOO CONFIDENT FOR HIS OWN GOOD.

WE'LL NEED ALL THE CONFIDENCE HE CAN MUSTER FOR THIS ONE.

DON'T WORRY, PRINCESS—

"IF ANYONE CAN GET US TO  
JABBA FETT, HE CAN..."

"YOU SHOULD HAVE

"BLAST YOU,

SO SOMEONE HAD ONE OF OUR TECHS TO TAMPER WITH AEGIS SIX'S COMPUTER SO THAT IT TARGETED ON LUKE.

WEDGE WAS FORCED TO BLAST THE TECH BEFORE WE COULD GET ANYTHING OUT OF HIM. BUT WE FORCED THE PAYMENT BACK TO A DUMMY CORPORATION RUN BY THE EMPEROR. IT'S GOT GARRY WEDGE'S MARK ALL OVER IT.

BUT WEDGE SAID HE WANTED LUKE ALIVE.

SO HE LIED!

PERHAPS... BUT THIS COULD JUST AS EASILY BE THE WORK OF BLACK SUN. THE PROBLEM IS, WE DON'T HAVE ENOUGH HARD INFORMATION.

WE'VE GOT TO GET TO SOMEONE INSIDE BLACK SUN'S INTELLIGENCE NETWORK. THEY HAVE EYES EVERYWHERE.

ROUUUUUUH!

TOO RIGHT, THEWIS! YOU DON'T WANT TO GET NEAR A CRIMINAL ORGANIZATION AS BAD AS BLACK SUN. PRINCES. THEY'RE DANGEROUS.

IF THERE'S A PLOT TO ASSASSINATE LUKE, IT'S VITAL WE KNOW WHO'S BEHIND IT.

LUKE, I WANT YOU TO GO TO TRAFALGAR. FETT MAY ALREADY BE ON HIS WAY. STAY WITH HAN.

RIGHT! I'LL TAKE ARIOD.

STAY AT BEN'S PLACE. GET OUT OF ARIOD. IT'S BEST IF YOU'RE NOT AROUND UNTIL WE KNOW WHAT'S GOING ON.

# DONKEY KONG COUNTRY 3 DIXIE KONG'S Double Trouble!

©1998 Nintendo

## ADVENTURES IN BABYSITTING

While Nintendo's Donkey Kong Country 3: Dixie Kong's Double Trouble is still being designed, we're tantalizing your taste buds with tidbits of exclusive information on a few of the game's coolest and creepiest creatures, and a sneak peek at stage and level features. The basic story is that Dixie and her baby cousin, Kiddy, are trying to catch up with Diddy and Donkey Kong. But a Kremling robot named Kaos is trying to capture all of them! This 32-Megabit, battery-backed game has so much detail that we don't have enough pages to cover it all here, but you can count on more tips and strategies in the future issues of Nintendo Power!

# NOT THE SAME OLD JUNGLE

Kong Country has changed quite a bit since your last adventure. Swanky has a new game and Funky is earning extra bananas at a boat rental shop. But what's up with the bears running around?

## THE BEAR NECESSITIES

Business is hardly bearish for the bear family living on the island around Kong Country. No, their stores and listen to their tales. A few give you advice or information while others need help solving a problem. If you assist the bears, they'll help you on your quest.

## SWANKY'S TENT

Step right up and throw a ball! In Swanky's Tent, you might win it all! This is the only game in town where you can toss at targets and win bunches of bananas and bear coins. Cranky won't let you take a turn unless you challenge him to a match.

## FUNKY'S RENTALS

When Funky finds catching a bear is just humdrum, away-at-the-sea water polo is a lot more exciting. In the perfect 100%, Funky will reward you with a new watercraft. You'll find the boat for the Monarchs when you defeat the water spider. And in honor of... Funky gave Funky the gold and he'll play up that spookey boat to the old island boat.

# GET BY WITH A LITTLE HELP FROM YOUR FRIENDS

Besides including your favorite old friends like Cranky, Swanky and Funky Kong, DKC 3 introduces a jam-packed jungle of new animal acquaintances with innovative abilities.

## A JOB FOR KIDDY KONG

Don't expect Kiddy to sit around waiting when he's out alone in the jungle. This baby behemoth has no qualms about climbing, swimming, or using his premature primate pectorials. Kiddy can also fill Dixie and toss her to high places. If the going gets tough, let Kiddy roll up into a ball and clear a path to the end of the stage.

## WRINKLY SAVES THE DAY

Looking for a place to save your game? Go see Wrinkly Kong. After years of teaching in the Kong Country School District, Wrinkly has finally hung up her naps and grabbed her aerobics shoes. If she's not too busy watching workout tapes, she'll gladly save your progress.

## ELLIE THE ELEPHANT

Ellie is one of five animal helpers that can assist Kiddy and Dixie during their adventure. Each animal has at least one special ability. Ellie can pick up and throw barrels with her trunk or inhale water and spray foes out of her path.

## BANANA BIRDS

Banana Birds are frozen inside hidden crystal caverns throughout the land. If you can reproduce the musical notes of the crystalline melody that echoes through each cave, you'll shatter the spell and release the Banana Birds.

# THE ARMY OF KAOS

No diabolical plan would be complete without a bevy of baddies. Kaos has an army of Kramling kreeps. These loyal followers will obey any order given by their mechanized master of mayhem.

## KLAPP

Klapp hunts for prey on overhead lines. He is a natural predator of apes, birds and utility workers.

## BRISTLE

Bristles can trip up anyone if he gets underfoot. Take him out with a barrel or leap over him.

## KOIN

Koin's tough armor makes him invulnerable—unless you can find a way to hit him from behind.

## KOPTER

Kopter dives down on unsuspecting animals. Get some altitude by repeatedly jumping on his head.

## REKON

Rekon uses his springy tail to launch at unsuspecting apes. Pop on his head while he's grounded.

## NIBBLA

Nibbla's insatiable appetite drives everyone out of the water. Try tossing him a Kramling snack or two.

## BUZZ

Buzz's buzz-saw back blade has a nasty sting. Use a barrel to knock the green Buzzes out of the sky.

## FORMIDABLE FIENDS

DNA introduces top-tier, big-time baddies with killer tricks and special powers—enemies that will delight experienced players. While the Kramling enemies in this game were susceptible to barrels and bouncers on the way in, you'll have to think of a new strategy and find new weapons to use to defeat the varied and deadly new Kramling army. From

# THE WILD WORLD OF DKC 3

Dixie Kong's Double Trouble features seven vast regions, and if you keep talking to Blunder Bear, he'll spill the beans about a secret Lost World!

## TIDAL TROUBLE

Get ready to get wet when you dive into the Lakeside Limbo and Tidal Trouble stages on Lake Orangatanga. If you want to find hidden secrets, use Kiddy and Dixie's team throw technique on the dilapidated docks.

## 1 Lake Orangatanga

The once-placid shoreline of Lake Orangatanga has been invaded by scores of Kano's knoofed Kremling krew. This six-stage lake resort has a little bit of danger in every terrain, ranging from under-sea uncertainties to alpine aberrations. Either Dixie or Kiddy can complete each stage, but you need the talents of both primates to find all the hidden items and bonus levels.

## 2 Krenwood Forest

A gurgling river runs through the dreary districts of Krenwood Forest. Break down champion river-racer maker Big Hunk's base. If you actually think you can beat his fantastic time, test yourself in the Riverside Race stage. But watch your hairy heels—here's a tale or two about a giant spider looking somewhere in the forest's shadowy glades.

## 3 Mekanos

Slime from the heavily industrialized island of Mekanos is polluting the water. North of Funky Kong's rental shop, there's been some strange goings-on late at night around the factories and wild tales about low-gravity gases in underground chambers. Could this be where Diddy and Donkey are monkeying around?

## DOORSTOP DASH

Flare up the dusty workshop of Doorstop Dash and you'll figure out how to pull down the door control levers suspended from the ceiling. After you grab a lever, you'll have only a short time to run through the door as it slowly closes.

## TEAM TROWS

Use the team throw technique to uncover high and low hidden items throughout the game. If Kiddy throws Dixie, she can get to hard-to-reach locations; if Dixie tosses Kiddy, he can use his extra layers of baby fat to break through flimsy floors.

## DEEP SEA DANGERS

Nearly every area in the game has at least one underwater stage. While apes are good swimmers, they can't paddle faster than the fish. Every school of fish has a pattern, and you can avoid being eaten by diving between the gaps in the fins.

## TREETOP TERROR

A Koorling forest management team working in the Melanzan Island forest noticed that Dixie and Diddy were up a tree. Ripsaw Rage is a mad dash against a sinister, serrated edge. Can you escape or will you be cut to wood pulp?

## PIPELINE PERILS

Before their adventure is over, Kiddy and Dixie will log more miles of precarious pipeline than any other Kongo family member. The toughest part is in the Kaos Kove plumbung. Where's Mario when you need him?

4

## COTTON-TOP COVE

Cotton-Top Cove is a funky series of forest lakes connected by venting waterfalls. There's also one of a popular tourist destination before all the Koorlings showed up and chased everyone away. With the exception of a hummed-out bear named Blue, the Cove is deserted. Perhaps Blue could help you out if you found something to cheer him up.

5

## K3

Winter always has an icy grip on the slick summit of K3. This is the hunting ground of Bleak the Snowman, the most ruthless righthander to ever chuck a dirty snowball. Watch your step on the slick slopes or you might slide into a bottomless crevasse. And be sure to warm your frozen toes at Forward Bear's Base Camp.

6

## RAZOR RIDGE

Like the mountainous K3, Razor Ridge is full of peaks and valleys. The bear brothers, Boney and Bjorn, run a chairlift operation here. Bjorn would be happy to give you a ride to the top of the ridge if you found his Number Six Wrench for him. If Barber Bear doesn't have the wrench, you might want to look for it in the alpine hike to the valley.

7

## KAOS KORE

Listen, you believe those silly bears and their rambles about a Lost World. Kaos Kore is the last area in Donkey Kong Country 2: Diddy's Great Escape, the most menacing mechanical monster ever built, has surrounded his secret complex with possibly the roughest, primate-proof stretch of jungle, water, and subterranean levels in video game history. Look for more coverage in the months ahead.

## UNCHARTED WATERS: NEW HORIZONS

### HOW CAN I AVOID A BATTLE?

Tracy Becket

Unless you're the luckiest sailor on the high seas, sooner or later you're going to be outgunned and forced to flee. If you can, retreat to a port and wait until dark. Ships won't fight at night, so try to make your escape under the cover of darkness. The best way to avoid battles is to have fast ships. The best ship overall is the full-rigged ship, sold in the port city of Antwerp.

When you're outgunned, flight is a better choice than a fight. If you have fast, full-rigged ships, you can outrun any threat on the seas.

If your vessels can't keep pace with jellyfish, try running from your foes under the cover of darkness. No fleet will dare to fight at night.

### HOW DO I LEARN NEW SKILLS?

There are five skills you can learn in New Horizons. These skills are Accounting, Cartography, Celestial Navigation, Gunnery and Negotiation. With the right attributes,

time and experience, your character can acquire some of these skills. Celestial Navigation is taught by Professor Juliana at the Observatory in Naples. You can learn Gunnery from Dr. Wolf in Hamburg;

and Cartography is taught in any city or town that has a cartographer. If your character cannot learn a certain skill, try recruiting a crew member who has the talent you're looking for.

Any cartographer can teach you about map making if you're willing to pay their fee.

See Dr. Wolf in Hamburg to learn about Gunnery. Your Courage attribute should be at least 50.

Professor Juliana can teach you about Celestial Navigation if your Knowledge is at least 100.

## HOW DO I REMOVE OR TRANSFER AN ITEM?

If you've lost your Ogre Battle instruction manual, you might have a tough time trying to figure out how to remove or transfer an item. Locate an empty spot on your inventory and transfer the item from the character to the main inventory list. If your inventory is full, discard items you don't need before you try to transfer valuable items. Then go find your instruction manual.

Be sure to keep your instruction manual nearby or you'll mess up on the game's basic functions.

Transfer equipped items from the character back to an empty space on your inventory list.

## HOW DO I DEFEAT GARES, THE BLACK KNIGHT?

Conserve your Tarot Cards for the battle against Gares on Avalon Island. Tarot Cards are the quickest method for defeating the knight. Deal

the cards prior to doing battle. The Fool card will banish Gares's force of Black Dragons, while the Magician, Chariot, Emperor, Justice and Moon cards elimi-

nate the Black Knight's hit points. If you're a bold tactician, try leading a force of mages to mop up the remainder of the forces around the knight's castle.

Before engaging Gares the Black Knight, deal out your Tarot Cards and soften up his armor.

Gares's Black Dragons are duped by the Fool Tarot Card. Use one or two and wipe them out.

If you don't have enough cards, risk your reputation and trade a few items with the enemy.

## HOW DO I GET TRISTAN TO JOIN MY ARMY?

There are several criteria you must meet before Tristan, heir to the throne of Zetegnua, will join you. Your character must have high alignment, good chansenra, and possess the

Herostar. Your reputation gauge should be nearly full and you must forgive Deneb the Witch. Make sure you have the Key of Destiny. Look for Banya in Kal Robst at the Slams of Zenobia. She is the

keeper of the key. If you tell her that you are not fighting to become the ruler, she will give it to you. Tristan joins you when you present the Key of Destiny at the battle for the City of Malano.

You must possess the Herostar and the Key of Destiny before Tristan will join the rebellion.

Tall Banya in Zenobia that you don't want to be a ruler and she'll give you the Key of Destiny.

Give Tristan the Key of Destiny at the City of Malano or he will never fight at your side.

# FINAL FANTASY III

## HOW DO I GET THE PALADIN SHIELD?

The Paladin Shield casts the Ultima Spell in battle. Visit the armor shop at the Village of Narshin in the World of Ruin. Let Locke lead your party. Buy the Cursed Shield and equip it and the Ribbon on Locke. Now go pick some fights with random monsters outside town. After 255 battles, the Cursed Shield will transform into the mighty and magical Paladin Shield.

Let Locke lead your party to the Armor Shop at the Village of Narshin the World of Ruin.

Equip the Cursed Shield and the Ribbon. After 255 battles, the mysterious curag will be broken.

## HOW DO I DEFEAT THE PHANTOM TRAIN?

The Phantom Train is the end of the line for some inexperienced role-players. The key to victory is making use of all of your adventurers' resources. Your party members' levels

should average 15. If you have Shadow and Interceptor on your team, you'll win the battle by sheer numbers within a handful of attempts. If you only have Cyan and Sabin, concentrate on using

Cyan's Sword Tech Level 1 and Sabin's Pummel or Fire Dance attacks. Finally, use the soothing Ferix Down and Revivify on the ghostly express. Healing items damage all the undead creatures.

Acid rain is a pain when you're running from the train. Your characters' must be at least level 15.

Cyan's Sword Tech and Sabin's blitz attacks eventually derail the underworld express.

The Ferix Down and Revivify devise take all undead creatures, including the Phantom Train.

## HOW DO I DEFEAT THE ATMA WEAPON?

The Atma Weapon lurking on the Floating Island likes to burn its victims with the Flame spell and finish them off with the jarring Quake spell. Launch your own preemptive strike by casting the Osmose Spell and stealing a

portion of the Atma Weapon's magic points. Cast the spell repeatedly until Atma cannot use the Flame or Quake spells. The average character level of the members in your party should be at least 27. Shadow can blunt Atma's bite by using

the Scroll or Bolt Edge attacks. If you're still having a tough time, call in the Moogle: Mog's Vanish Spell, coupled with the Doom Spell or the Dusk Requiem dance, will ruin Atma's day. Mog can also use Cave-In and Suate to demolish him.

Don't get burned by the Atma Weapon's Flame spell. Cast Dances and steal the weapon's MP.

If you have Shadow in your party, use Scroll or Bolt Edge. You did wait for Shadow, didn't you?

If you have Mog in your party, let him cast the Vanish and Doom spells on the Atma Weapon.

## HOW DO I GET PAST THE SWIRLWINDS?

**L**evel 2-7, Swirlwind Storm, is a turbulent zone filled with stone tomadoes and diving bees. While you must do your best to avoid the bees, there is a trick to getting around the stone tomadoes. Treat the tomadoes like spinning tops. If you carefully jump up and run on top of the tornado, you can ride them through the stage. Use this technique to navigate hazardous crossings and avoid the buzzing bees.

Between Swirlwind Storm's buzzing bees and the turbulent tomadoes, it's nearly impossible to avoid everything without taking a single hit. The trick is to run on the top of each swirling tomado.

To run on a tomado, jump up and tap to the left to maintain your balance. It's similar to running on a spinning top. If you monkey around and fail to keep up, you'll slide off and fall to the ground.

# STREET FIGHTER

## ALPHA 2

The series that jump-started the street fighting craze returns to the Super NES after a two-year absence, and *Street Fighter Alpha 2* is well worth the wait!

©1992 Capcom Co. Ltd.

### WHO NEEDS A NUMBER THREE!

More amazing than the fact that none of the Street Fighter games has ever had a number "3" in its title is the phenomenal success the series has enjoyed. Many of the fighting faithful had the SF series as the one for purists, those who value play control, speed and tactics above all. *Street Fighter Alpha 2* reemphasizes the series' focus on true hand-to-hand combat. In fact, SFA 2 is a lot like a Jackie Chan movie: there are some really spectacular stunts in it, but the real fun is in trading kicks, punches and combos in a whirling frenzy of limbs. SFA 2 somehow manages to contain all of that action, along with 18 characters and a slew of animated backgrounds, within its 32-megabit architecture.

## GETTING REACQUAINTED

For those of you who are unfamiliar with the Street Fighter Alpha series, here's a quick run-down: SFA (which did not appear on any Nintendo system) was a "prequel," shoehorned in between the original SF arcade game and SF II. SFA 2 is a sequel to SFA, but still set before SF II. Got it? All of the new tactics in SFA 2 are powered by the Super Combo Gauge at the bottom of the screen, and you punch, kick and execute special moves to build up your energy. There are three power levels, and once you pass Level 1, you'll be able to perform a Super Combo, Custom Combo or an Alpha Counter.

## SUPER COMBO

Once you have enough energy built up, you can execute a Super Combo, which is usually a longer, more powerful version of one of your special moves with a few extra punches and kicks thrown in for good measure. The more energy you have stored up, the more powerful your combo will be.

The Simple Command option on the Character Select screen allows you to execute a Super Combo by pressing just two buttons.

SFA 2 is aimed at serious tournament fighters, but the Simple Command option allows button mashers to have fun, too!

## ORIGINAL COMBO

Pressing two punch buttons and a kick button (or vice versa) simultaneously starts the Custom Combo timer. As long as the timer is on, any punches, kicks, throws and moves you perform will automatically form a combo!

The strength of a Custom Combo will depend on the energy you have.

## ALPHA COUNTER

With so many terrific ways to deal out damage, Capcom's engineers had to make sure that you could also defend yourself well. Enter the Alpha Counter. Press Back, Back/Down, Down and any punch or kick after you've blocked an attack to immediately counterattack and put your opponent into a stall.

The Alpha Counter is also fueled by Super Combo energy. You must be at least to Level 1 to use the Alpha Counter.

**CHARLIE**

Charlie is Guile's old comrade-in-arms, and it shows in their similar fighting styles. With such a limited repertoire, however, you'll need to be very clever to prevail against your opponents. Foot sweeps and jump-ins will be the only consistent ways to score a first hit, but this will get old pretty fast. You'll have to rely on ferrets and fake-outs.

Press all three punch or kick buttons to switch from the Ki-ryu style to the So-ryu style and back. When using So-ryu style, try a crouching Weak Kick, a Medium Punch and a Strong Kick as the basis for a combo. Add on other blows and special moves and see what develops.

Use this if you're literally up against the wall. Even if you don't connect, this move can take you up and over your opponent's head.

## ROLETO

Roletto's military training gives him a lot of combat options, and his speed gives him the ability to multiply his strikes at the ends-of-combo with the Patriot Circle. Use the sliding Strong Kick to get close quickly. You'll either get a knockdown or, if your opponent blocks, be able to move right into a combo.

Mine Sweeper ③③③③③③③③+P

The Mine Sweeper is unpredictable and can throw your opponent off balance, but it has limited range.

## ROSE

Rose is a flower of the darkest variety, and her basic hold/throw move (press Medium or Strong Punch right next to an opponent) will drain up to 20% of a hapless victim's life force! For more short-range action, lead off with an Alpha Counter, then break out a crouching or standing Medium Punch and a Soul Spiral.

P, P, P, P, P+P

The Aura Soul Throw drains so much energy, your opponent won't survive too many of these!

## SAKURA

Sakura's great skill belies her tender years, and she has taken more than one opponent by surprise! Her Strong Kick is relatively slow, but it's good as a feint. If your opponent blocks or tries a counter, execute a Shun-pu-kyaku and follow it with two crouching Weak Kicks and a Sho-o-ken. If you can get the timing down right, you might even insert a Weak Kick or two before the Sho-o-ken.

If this is a proquel, are these characters already "classik"? Any way you look at it, these World Warriors won't let you down!

## RYU

Possibly the most popular World Warrior, Ryu will forever be associated with the Hadoken and the Sho-ryu-ken. Mix things up with the Sen-pu-kyaku and the Collarbone Breaker to keep from becoming too predictable.

To avoid being blocked, try to execute this combo once your opponent is already in the air.

Former training partner to Ryu,

Ken has a few unique moves that set him apart. The Fake Fireball may not fool anybody, but in the heat of battle, it may just be the thing to throw your opponent's timing off. The Forward Roll is also a good move, since most people would expect an attack from on high.

**SAGAT**

Sagat would be insulted at the suggestion, but his moves bear some resemblance to Ryu's and Ken's. Most of his moves involve an uppercut motion, but his Tiger Shots give him some flexibility, with one version hitting high and the other hitting low. If all else fails, you can faint with a Ground Tiger shot, then move into a Tiger Knee or Tiger Uppercut. It's easy to mix up the commands for the Tiger Raid and Tiger Genocide, but the latter is much more devastating.

# MS. PAC-MAN

## A CONSUMING PASSION

Flash back to 1983, when the B. Orchard of the arcades was a little round ball with the cutest red bow you can imagine. Ms. Pac-Man wanders through a series of baffling mazes, eating up every dot in her path. If one of four colorful ghosts bumps into her, she's lost. But if Ms. Pac-Man eats a flashing orange dot, she revitalizes the ghosts from blue and loyal for the hills while Ms. P. traps them down. A choice of four maze options, four difficulty levels, three two-player modes and two speed-ups guarantee hours of chomp-happy fun!

## PAC LOVE

In the beginning was Pac-Man. But Mr. P. was lonely. Sure, he could eat all the dots he wanted and

but ghosts only the chickens came home at school, but he had no one to share his hopes and dreams with. Enter Ms. Pac-Man. Just one

look at that cute little thing, and that big red like and Pac-Man had his over-ripe head, and her clear manner. You'll see their... together, certainly, could be best attraction.

## IT TAKES TWO TO TANGLE

Pac-Man returns in competitive and cooperative modes. In alternating mode, each player takes a turn as Ms. Pac-Man. In the other two modes, one player is Ms. and the other is Mr. Pac-Man. When one player is caught, the round ends.

### MS. PAC-MAN

TYPE : 2 PLAYERS (ALTERNATING)  
 PAC BOOSTER : USE A OR B  
 GAME : DIFFICULTY : NORMAL  
 MAZE SELECTION : 1 (ARCADE)  
 STARTING LEVEL : 1

### TWO-PLAYER ALTERNATING

In alternating mode, you and a pal each take turns as Ms. Pac-Man. The system keeps a running tally of your scores. Remember that, in all the mazes, you can exit on one side and re-enter on the other. But be careful: A pair of shrewd ghosts can trap you in a tunnel!

### TWO-PLAYER COMPETITIVE

Every time you eat an energizer in the Competitive mode, your hapless rival can't so much as eat a dot. However, ghosts can't spook a discombobulated Ms. Pac-Man or Pac-Man.

### TWO-PLAYER COOPERATIVE

When playing cooperatively, if one player eats an energizer, both get to chew up ghosts and dots. This mode is a dash in both dot and combined scores. With teamwork, you and a friend can rack up an impressive combined score.

## FOUR MAZE MODES

The waka-waka wizard at Williams pulled out all the stops with Ms. Pac-Man. They packed this fan-fest with four modes and 36 different mazes. You'll find yourself bending your brain by the hour. So go ahead. Pig out!

### ARCADE

Just off these old paperback guides to Ms. Pac-Man, Williams has re-created the classic arcade mazes that baffled millions of Pac fanatics.

### MINI

In two-player competitive or cooperative modes, one player will disappear when the other player is at the far end of the maze. Players who prefer to see what they're eating can reduce the scrolling by choosing Mini mode.

### BIG

And times often are by concentrating on eating the ghosts instead of the dots in these behemoth labyrinths. It's a sure recipe for becoming a ghost dinner!

### STRANGE

Big, strange-looking mazes without an energizer might make those wacky courses especially tough. You'll have to beat away a hasty retreat in order to capture their beauty in this piece!

# YOUR MS. PAC-MANUAL

Ms. Pac-Man is a deceptively simple game. At first, you should try to figure out the fastest route through mazes. Since the big points come from eating ghosts, though, you'll want to learn the most opportune moments for eating an energizer.

## EAT EVERYTHING

Circle around in search of all dots. Otherwise, you'll wind up having to dodge four hungry ghosts as you seek out the remaining couple of dots on the other side of the maze. In the tougher mazes, you'll have to pass right by the ghosts' home on your way to the top of the maze.

The four ghosts are pretty forward, too. The moment you eat an energizer, they'll see for their little blue lives. Sometimes ghosts move in groups, and other times they'll split up and try to surround you. When you have a chance, snack on some grating grub. It's worth big points, too!

## GULP DOWN LOTS OF GHOSTS

After munching an energizer, the first ghost you eat is worth 200 points. The next gives you 400 points, the next, 800, and the last, a whopping 1,600 points! So wait until all the ghosts come close before turning them blue. The ghosts will run like mad, then flash white just before reverting to their normal, Ms. Pac-Man-hunting selves.

## FRUITS OF YOUR LABORS

Crinkling foodstuffs cavort across your course. Snack on them if you want plenty of vitamins, minerals and points. As soon as you eat one, another will appear!

100

700

200

1,000

## THE PAC BOOSTER

Wanda throws a trick with the Pac Booster!

You can choose to have it always on or as an option that you activate by pressing the A or B button. If Ms. Pac-Man and Pac-Man collide while both are using the Pac Booster, they'll get...that crazy.

# MIND YOUR MAZES

In order to practice on the later rounds, you should just try to survive the early rounds. Once you become proficient at dining on dots, you should focus on eating four ghosts at a time. Learn how long

they stay edible before they can turn a trick on you. Don't be deceived by Inky, the blue ghost. It's hard to tell when this clever poltergeist changes from being edible to being able to attack!

## ARCADE

Back in the heyday of Ms. Pac-Mania, many a gamer blew a month's worth of quarters on a single arcade session. Time marches on, though, and now you can enjoy this classic chase game in the comfort of your own home without having to worry about your finances. Is this a great country or what?

## BIG

Keep your eye on the dots in these megamazes. Clearing out the dots in the nooks and corners that are far from any energizer is particularly tough. Some players try to hold off eating any energizers until they absolutely have to, but this is a high-risk strategy. One slip of the thumb and you're ghost grab!

## MINI

Mini mazes provide ample opportunity for gobbling ghosts. But remember that the ghosts can get to you that much quicker, too!

## MAKE THE GRADE IN CLASS P

### Tips for Flying to the Top of Your Class

If you're looking for ways to make the grade in Pilot Wings' final tests, spend some time looking over the scoring breakdown for each exam. Landing Accuracy and Landing Impact are two of the most important aspects in almost all of your Class P certification

tests. The points in these two areas account for nearly one-third of the points in each Hang Glider test and equal fifty percent of the score for the

up your approach and reduce your speed before you touch down. Time Points are another critical factor. They are included in seven out of the nine Class P tests.

In two Rocket Belt tests, Time Points account for 100% of your final score. While time is always of the essence, it's important not to become flustered or impatient when you make a second or two on a minor error. You'll find more Class P test strategies on the back of this month's poster.

Gyrocopter test. Since you've already had plenty of landing practice during your Class A and Class B certification, there's no excuse for bouncing across a runway or missing the center of a target. Spend a few extra moments lining

## HANG GLIDER

### THERMAL FLYER

You have only four minutes to ascend to the highest thermals above the Little States Island. Look for thermals that ascend in a stairway pattern. Kiwi and Lark have great Hang Glider skills and are the easiest to use for this test.

## ROCKETBELT

### DARK CAVERN

The Dark Cavern test is one of the most difficult exams in the game. The key to earning a high score is to avoid hitting the walls and to use the Air Brake sparingly. A few long blasts from the Air Brake can consume your entire fuel supply.

- 1 Enter the cave behind the waterfall.
- 2 You'll find the Goal Ring here if you go through the cave.

## GYROCOPTER

### ICE HORNET

Memorize the locations of all nineteen rings so you can adjust your altitude and heading long before you even have the next ring in sight. Keep the throttle open. These strategies give you more time to spend lining up your landing approach.

A	40m	3	33m
B	90m	4	20m

Reaching the Class P exams is a major accomplishment, but earning your gold wings in all three divisions is a true flying feat. Get your head out of the clouds and follow these tips for making the grade. If you pass, you'll enter Jumble Hopper stage!

## CLASS P

### RISEING CREEK

Instead of diving down through the canyon, ignore rings A, B and C and veer right to pick up the D ring first. This strategy saves you an extra thermal ride and adds some points to your time score. You need only eight of the fifteen rings.

### DIAMOND HEAD

A strong wind hampers your efforts to drive the ball into the goal. Before you start, place the ball between yourself and the goal. As you fly at the ball, use the Strong jets to gain momentum and slam into the ball at least 2-3 km/h.

Bounce the ball down the mountain to the goal.

### BALLOON RUSH

Unless you are an unbelievable marksman, save your precious time and fly through most of the balloons floating in this stage. Remember that you can launch only two missiles before your Gyrocopter weapons system pauses to reload.

The yellow dots indicate balloon locations. Fly through the balloons or hit them with missiles.

## SHUTTER BUG 3

Your three photos account for sixty percent of your test score. Study the sample photos and use the C Buttons to change your view so the subject is centered in the photograph. Take two pictures of each object. Try to avoid hitting Missil.

- 2 Passenger Boat
- 3 Space Shuttle
- 4 Land here

## TOUCH & GO 2

Heavy winds make it difficult to touch down on all islands in this exam. Keep your fingers off the Air Brake or you'll run out of fuel. Master using your R Button and the C Buttons so you can keep your next landing point in view.

## MECA HAWK AGAIN

You can't hit Meca Hawk when he's submerged. Watch his pattern and line up for a shot when he breaches the surface. Flying close makes you an easy target, but you might get two hits on a single attack run. Sink the robot with five hits.

## BUILDING ON TRADITION WITH SIMCITY 2000

Strategy fans should thank the decision makers at T+HQ for going out on a limb and bringing SimCity 2000 to North America. It's refreshing to see a publisher that is willing to buck the trend and give epic gamers a great product. We should note that your comments to Epic Center may have had an impact on the decision, because your editors at Power spoke to T+HQ about the need for more epic games for the Super NES. To all involved, thanks, and let's get building.

As PC and Mac gamers have known for two years, SimCity 2000 is probably

the biggest and most involving building simulation of all time. SimCity was just the beginning. In Japan, Imaginero brought this game to the Super Famicom shortly after it appeared here on the computer platform. The Black Pearl/T+HQ version is virtually the same game with English text.

In your new cities, you'll be able to control everything from plumbing to space ports. The number of facilities that you can build has grown exponentially over the original SimCity. Your options

which now include providing tax incentives to industry and collecting special revenues from income and excise taxes. You'll even find a provision for legal gambling. Keeping your SimCitizens has never been easier with so many services available. You can build schools and colleges, hospitals, prisons, stadiums, parks, a yachting marina, libraries and museums. Gills appear at critical junctures, just like in the Super NES version of SimCity. With all of these resources at your command, you might think that the job of mayor has suddenly become a piece of cake. Not so. The complexity of play is much greater than before. You begin by providing the full infrastructure that your SimCitizens and SimIndustries require. The same problems that plagued cities in previous versions of SimCity also haunt your life in city hall here: pollution, traffic, high tax rates, disasters, and

crime. Your success at dealing with these problems, while managing the budget and keeping citizens happy, will determine your success as mayor.

The Super NES version of SimCity 2000 includes most of the features found in PC and Mac versions of the game, but you don't have a map editor for sculpting the landscape before you begin. Once you've begun play, however, you can raise or lower land as in the computer games. The other noticeable differences include the graphics, which can't compete with the crispness of a computer monitor, and the use of the controller rather than a mouse. For players who don't have a computer at home, but who love SimCity, this game provides the most bang for the buck. Within half an

hour, you'll get used to the controls and be headed for a megalopolis in the future. You'll be able to begin construction this fall, probably by November.

# A HYRULEAN ADVENTURE: A LINK TO THE FUTURE

## POWER SOURCERS PLUG IN AGAIN

Where can you find mabines, wizzrobes, waffle spookys, hero's named Link, the Energizer Bunny and a b Dole all wrapped up in a raucous, rollicking room with few rules and a lifeforce all its' own? This riddle has but one answer: Nintendo Power Source—on America Online, in the Epic Center, where our third interactive adventure has been exploring brave new worlds. For those of you who haven't connected to Power Source, or clicked through the Hyrulean borders, the interactive adventures are composed of bulletin-board postings featuring fictitious characters set in a fantastic world. It's a place where you can create an adventure or hit have has reading the imaginative postings from other gaming fans.

The summer's adventure took place in an unexplored corner of Hyrule where a shipwrecked people had to start a new home amidst a bunch of very angry monkeys. The characters portrayed by our Sourcers included humans (Shigami), mabines (Kasi), and beings that crawled

from beneath the about every rock in the fantasy universe. There were glorious battles, of course, and more spells than you'd find in a manual for witches, but there was something completely unexpected, as well. The residents of this bit of cyber space created a unique community. They elected a governor. They built a city. They held a live trial. They ran shops and ate and rock concerts. Official and unofficial scribes recorded and summarized the major events of the community. None of this was suggested by the organizers at Power Source. It all came about spontaneously from the players at the game. In the following pages, you'll find excerpts and art from the Sourcers. And if you like the look of this adventure, just wait for the next one.

## FOR THE HYRULEAN ADVENTURE

By Gilchrist

## SCRIBE THIS

Some of the best bits of the Hyrulean Adventure were the new updates from the White official scribes. In this post, one of our sources, most dedicated scribes, Dark, who, otherwise known as the Scribe of Power, summarizes the recent events.

Recently, in the Northern Mountains, adventures have located a passage to the eastern part of the Island. This passage opens into a desolate, deserted area known as "The Wasteland." The Wasteland was once inhabited by the Kori, until one of the land led to its current state. Now, the ground is cracked open, much like certain "Death Valley" in a far away land. The sun baked soil is completely lifeless, save for a few struggling weeds. A thin layer of dry dust covers the region, constantly blowing here and there. There have been rumors of possible inhabitants of the region. Armored soldiers have been spotted marching through the desert. The mysterious "Sirius Empire" is believed to originate from somewhere in the vicinity.

Strange, mammoth creatures are said to inhabit the wasteland. Scattered, forgotten ruins are also said to exist. The entire Wasteland is as silent...except for the constantly howling wind. Use extreme caution when exploring.

Self-proclaimed amateur scribes also added their take on the scene. It was a lot of fun juxtaposing some of the personalities and storylines. For instance, the weird appearance of Transformation and Deceptions in Hyrule was cause for merciless teasing, but even the official scribes, one of whom began a series of sack attacks, received a verbal ribbing.

Yaku: Hey look, it's from Rawley, j.k.k.a. RawleyCamp, Scribe of Wisdom and Twisted Abductor.

MagXXX: You Ding dang!

Kupant: He truly is the Scribe of Wisdom.

Scorp: Are you wrot? It could be a trick. It might be a Foodicon.

## BUILD A TOWN

Close to home, the shipwrecked Shiyani immediately set about building themselves a town, but as events progressed, they realized that they needed more than the odd inn, a city hall and a scattering of shops. Grand projects began, including an impressive irrigation system and the mighty Tower of Valc with its giant bells. On a more practical level, the boys had a Board of Health, which had its hands full combating a terrible virus. Shig's a mutual Splatoon'd, a hot lead pie shop in the heart of the town. The egg parlor...

# NO, BUT SERIOUSLY, FOLKS

...but most of the citizens of Shigamir just wanted to have fun, and fun they had. Many adventurers razed their own characters, other characters, the scribes and even real personalities in current news (such as Bob Dole and President Clinton).

Other writers such as Ultraminky just had a little fun with the language:

"Under the character Monkey was playing in his pot of boiling oil when, suddenly, a bolt of lightning erupted from Herbie's toilet, and zapped him in the eyeballs. He awoke in a strange land, and he knew he wasn't in Cancun anymore."

The most ambitious procreator of them all was a character named Splat (created by MoqXXX) who had a unique way of greeting people.

"XL, an inter-dimensional traveler, was now traveling in Hyrule. 'Yes, this will be a nice world in conquest,' XL said to himself.

Then came Splat.

"Hey, funny-looking dude. What's your name?" asked Splat.

"I am XL, dictator of 47 galaxies, and soon to be the ruler of this one," answered the funny-looking dude.

Splat had his pie ready. "Splat, the clown, took it as his duty to give a gift to the king of intergalactic empires. He took a pie, baked it with his special recipe, and in the time it took to bake the pie he had already seen the king's face. He identified the king as President Clinton."

Splat was walking in the park when he noticed a man sitting on a bench. He put a pie behind his back, walked up to the man. "Excuse me, sir," Splat giggled, "what's your name?"

The man looked at Splat for a while and then said, "My name is Forrest, Forrest Gump." People like to call me Forrest Gump," Forrest picked up a box, and said "would you like a box of chocolates?"

Obviously, Forrest got a pie in the face, just like Dorothy and her companions "under the Wizard of Oz, Gozelle and others. Apparently, life in Hyrule is like a pie in the face.

## THE TURTLE ROCK INN

At one time or another, most of the characters stopped by The Turtle Rock Inn for a chat with the

owner, "Apel Sider, or just to throw mugs of fooding. How far other animals migrate to each other. If you want to know what's happening in Hyrule, the TRI was the place to be.

Apel Sider was drying a few mugs when the oddest-looking man

walked in. He was only four feet tall, wore court-jester's clothing, had a pure white face, and a funny red nose. He walked up to Sider and said, "Are you Apel Sider?"

"Yes," Apel replied, "that be me."

The clown man then said, "Well then, you're in luck. I got a present for you." He was giggling loudly.

"Really? May I have it?" asked Sider.

"Here it is!" and with that, the clown threw a big pie in Sider's face.

"That's the best I've ever tasted from anyone," he said. "I'll be seeing you."

"Millions and millions were splitted." D4Ptes described the new marketplace in town by having his characters cruise through it. No doubt, the governor was pleased to have his people being sure.

Booey strutted along slowly with G8 and Beano the matherophile, into the new Zora Marketplace.

"WOW! This is amazing," G8 gaped. "Living in a cavern for years... you forget how awesome structures like this look..."

Booey shook his head, and then added his two cents. "I agree... Hey, I voted for the guy," he smiled.

Chances are that the gov was less pleased with the following call to arms. Cc312 tried to form a rebellion by posting this message at the Turtle Rock Inn: **REBELLION!!!**

To all who despise (Governor) G8plaza, post if you want to join in the "Coy-Hall" folder. **WE WILL WIN!!!**

## ATTENTION:

The trial of the century (Um, the only trial I guess) is about to begin! The Wizzrobe Trading Company vs. Jackson News trial is ready to roll. But, of course, how can you

er a missing piece of the map of Hyrule, and in the end, they did just that.

"You fought well, I am Lyris," the lion head spoke, "and these are my brothers, Drake," he turned toward the dragon, "and Garthok."

"We have protected this map piece for six-hundred years... you are the first to defeat us," Garthok said, his voice high-pitched but still intimidating.

Conflict of one sort or another, has always been a hallmark of Power Source's interactive adventures. Mighty battles seem to be almost pedestrian for these frequency, but Infinity 21 may have found a better way to deal with megalomaniac leaders: you put them on TV as in the case of the following interview with the evil Emperor Dharikon on the Turtle Rock Entertainment channel.

We caught up with Emperor Dharikon inside his tower recently, where our reporter, Tripp Harrison was able to obtain an exclusive interview with the man known only as 'Emperor Dharikon'. He's a rather intriguing guy, and ladies, he's single!

TR: So, Dharikon--

ED: Call me "Emperor", or "My Liege", or I shall have your head removed.

TR: Right, Emperor. So, Emperor, what's it like being one of the biggest villains left here in Hyrule, what with Kenob gone and Zeron not really doing anything at the moment?

ED: Well, Tripp, I kinda like being at the top. But you know, I think it may get to be a bit of a nuisance eventually, what with do-gooders everywhere trying to rid the world of all evil and all that.

We never did find out what a Deputy Dusty was, but the trial took place and justice, it seems, was achieved. Yes, there's no rest for wicked rulers of the towers! It seems that the Hyrulean Adventure writers didn't get much rest either in the first three months of the adventure, and over 3,000 postings were made. Even more for adventure continues. What will become of Emperor Dharikon? Who will split split next? Will Governor Caplaza survive the rebellion? What will happen in Eastern Hyrule now that it has been discovered? The answers to these questions and more can be found only in one place: Nintendo Power Source on America Online, in A Hyrulean Adventure.

# SUPER MARIO RPG

## LEGEND OF THE SEVEN STARS

*Mario and Co. have pulled up their side-scrolling roots and planted themselves squarely in epic territory. Combining the charm and humor of the Super Mario Bros. series with the intricate plots and strategies of RPGs, Super Mario RPG: Legend of the Seven Stars is introducing a horde of new fans to the fun and grandeur of epic entertainment!*

### A NEW CAREER

Mario, now that's a name you may never have expected to see in this column, but by all accounts, Super Mario RPG: Legend of the Seven Stars is an unqualified hit among long-time Mario fans and RPG enthusiasts alike. This single game currently accounts for about 15% of the game play calls that Nintendo receives, and we've been hauling in bushels of letters asking us all sorts of questions about this breakthrough title. In response, we've expanded this month's Epic Strategy to four pages and dedicated them to your Super Mario RPG FAQs.

### Treasure Boxes

One of the questions we've received most often is, "Where are all of the hidden Treasure Boxes?" There are 39 hidden Treasure Boxes in the Mushroom Kingdom, and the chart above shows how many there are in each area of the game. Finding the boxes is not essential, but most contain valuable goodies, like Frog Coins.

Area	Boxes
Mushroom Kingdom	3
Bomb's Way	1
Rose Town	2
Forest Maze	6
Pipe Walk	2
Yortortle	1
Boosier Pass	2
Boosier Tower	4
Marymore	1
Sunken Ship	1
Land's End	6
Moatso Town	1
Beau Willy	3
Nimbus Land	5
Factory	1

Most of the boxes can be retrieved at any time, even after you've moved on to another area. The only exception is the box in the Mushroom Kingdom Castle, which was discussed in last month's Counselors' Corner.

The Signal Ring will make finding the boxes a lot easier.

We don't have enough space to give you the exact location of every hidden Treasure Box, but if you find the Signal Ring, it will sound

an alarm whenever you enter a screen that has one in it. (The locations of all hidden boxes are shown in the Super Mario RPG Player's Guide.) The Signal Ring can be found in Nimbus Land after you defeat Valentina. Coco will drop it when you confront him in town in the building on the far right. If you want to know how many boxes you have, visit the Thwomp's Room in Moatso Town. The K-9 (the rat- or dog-like monster with flashing eyes) there will keep a tally and tell you how many you've found so far.

### Attack Scarf

Besides the Signal Ring, there are several other items and

The Thwomp's Room will play a key role in several situations.

accessories that players have been asking about. The first is the Attack Scarf, which will bump up all of Mario's attributes by 30 points. If you mon-

itor to perform a 30-hit Super Jump attack in battle, you will receive the scarf from the same K-9 that tells you how many Treasure Boxes you've found. Performing a 30-hit Super Jump is extremely difficult, especially since the timing of your jumps will change at about the 16th or 17th hit and around the 22nd or 23rd hit. Your only hope is to pay close attention and count your jumps as you go.

### Fungi Lamp

One particularly puzzling item is the Fungi Lamp, which is a table lamp that looks like a mushroom. You'll usually find one sitting on a

The first Fungi Lamp you'll find is in Mario's Pad.

shelf or a dresser in a room. It has the power to restore your hit points and Flower Points, just as if you had slept for a night at an inn. You activate it by standing in front of it and pressing A.

### Seed & Fertilizer

A number of players have obtained the Seed, which is the reward for defeating Smiloge in Bean Valley, but many are unsure what to do with it. Like many of the trinkets and baubles you'll find in SMRPG, the Seed is connected to several other items and events, but these connections aren't readily apparent at first glance. You won't be able to use the Seed until after you defeat Valentina in Nimbus Land.

After you've rid the world of Valentina's evil (and poor fashion sense), go back to the main town square in Nimbus

Land. From the entrance, walk to the right until you see one of the townsfolk. Walk up along the wall, pushing right at the same time. After a

It's not surprising that many players never find the Fertilizer.

few steps, you should come across an invisible path that leads you out into the open air. Follow the path to find a Shyster. He'll give you some Fertilizer to keep you quiet.

Now take the Seed and the Fertilizer and head back to Rose Town. If you give them to the Gardener, he'll grow a vine that will lead up into the clouds. Climb the vine and search the clouds to find a purple shell. Lazy Shell and the Cozy Shell Armor. The Lazy Shell is the most powerful weapon in Mario's arsenal, and it will increase his attack power by 90 points. The Lazy Shell Armor can be worn by anyone in your party, and while it decreases your Speed, Attack and Magic Attack stats by 50 points each, it will boost your Defense and Magic Defense ratings by 127 points each!

## The Beetle Box

The last item we'll cover at this point is the Beetle Box. This is a special cage that will allow you to collect valuable insects at Booster Hill.

Once you've beaten Yandovich, the Seaside Town Item Shop will be bought out and turned into a Beetles R Us franchise. Pay the Snit 100 coins as an initiation fee and 50 coins for the Beetle Box. Return to Booster Hill and run the race as you did when you chased Booster,

jumping from barrel to barrel to reach a higher position on the steep slope. If you get high enough, you'll be able to grab a beetle.

Coins are cool, but a Frog Coin would be even better!

Now go back to Beetles R Us and reclaim your catch for legal tender. A Female Beetle will net one coin, a Male Beetle will fetch five coins, and a rare Golden Beetle will be worth a Frog Coin. Even if you don't have a Beetle Box, you can run the race and earn some extra Flower Points.

## Portrait Puzzle

Now on to some of the trickier areas in SMRPG that weren't covered in our regular reviews. The first thing problem is the Booster portrait puzzle in Booster Tower. You'll see paintings of Booster's ancestors when you first enter the tower and again when you exit down and right from the tower's first Save Point. When you

get to the second set of portraits, you'll be instructed to select them (face the picture and press A) in order from the oldest to the youngest. If you were to number the portraits from one to six starting from the left, the solution to the puzzle is 6-5-3-1-2-4. If you

complete the puzzle correctly, you'll receive the Elder Key, which unlocks the door to the Elder's Room to your left. There you'll find the Chompy Bowser's first weapon!

## Sweet Suite

When you reach Marrymore, Booster will be preparing for his shotgun wedding to the Princess. But before you take care of that situation, you may want to make a quick detour to the Marrymore Inn. There's a hidden Treasure Box in the regular guest room on the second floor, and you won't have to pay the room fee of 10 coins to get in. If you need to restore your strength, though, you may as well spend the night before you rescue the Princess.

If you want to splurge, you can crash in the Honeymoon Suite on the third floor for 100 coins. Room service is available in the suite by ringing the bell. The Pick Me Up goes for twice the normal price, but the KeroKero Cola is a bargain at 25% off regu-

lar retail. If you spend one night in the suite, the staff of the Marrymore Inn will show their appreciation for your patronage by giving you a Flower Tab. If you extend your stay to three nights, they'll give you a Flower Jar, and if you stay five nights,

they'll give you a Frog Coin. Make sure that you have enough cash, though, if you can't pay your bill, you'll have to work as a bellhop until you've cleared the debt!

## Under the Sea

Another big mystery that has a lot of players stumped is the password puzzle in the Sunken Ship. In the first puzzle room, jump up and force the Koopa Paratroopa to knock the ball onto the switch. In the second room, hit the blocks to line up the trampolines so that the ball will hit the switch. In the third room, work your way through the maze, jumping often to find the invisible blocks. In the fourth room, run and grab the coins before they vanish. In the fifth room, hit the block to fire the first cannon, then hit each cannonball in turn. In the sixth room, jump on the barrel and guide it around using the Control Pad. Place the barrel on one switch and then stand on the other one.

Once you have the clues, use them to figure out the password. (If the answer still eludes you, it's PEARLS.) Go to the password blocks and,

Block 6	S	T	E	K	R

starting in the upper left corner, hit them to scroll through letters and spell out the password. Now speak into the pipe to open the door. King Calamari awaits!

## On the Road to Monstro Town

After you complete your missions in Land's End, you'll head over to Monstro Town by way of an underground passage. In the underground area of Land's End, drop down to the lower part of the chamber and make your way to the exit. Walk up and right to the next screen. Walk up and right again, then drop down the hole. You'll appear in a large room with a few Gekits. Defeat them, then search behind the crates in the left corner to find a wandering peddler selling an Inevincibility Star for 400

If you turn down his offer, the peddler will disappear for good.

coins. Walk up and right to the exit. Work your way up and right to the stairs. Go down the stairs, then walk up and right to the exit.

Now this is where things get interesting. You must pay the cloaked Shaman 50 coins. You want to go on, he'll ask you to flip the three Gargoyle switches to make your fortune appear. The order in which you flip the switches will determine your fortune and the path you'll take beyond this room. You can consult the chart below to see

the different paths you can take and see which ones will allow you to exit the maze. Sequence five will either give

you a usable your money back or give you a Frog Coin, so you may want to loop through the maze several times with this fortune before you move on to Monstro Town.

After you pay the fee, flip the Gargoyle switches, read the scroll that appears, then go up and right to the next room. Drop down the green pipe. Depending on your fortune, you'll either see enemies or a Treasure Box. Defeat the enemies or open the box to open the gate. Follow the path there's only

If you used sequence one,

The Shams that Belome won't fight you, and try to make a snack of you. Go down and right to the exit. Belome will challenge you to a duel, and you'll have a chance to defeat him and open the path. bedome," then Belome will refuse to fight you and the path will remain closed. If Belome won't fight, but you want to move on, go back to the first fortune room for a different reading.

Once you defeat Belome, jump on the switch to open the gate. Go to the chamber beyond and jump down the pipe to get to Monstro Town.

## The 3 Musty Fears

Monstro Town is a veritable hotbed of activity in SMRPG. Some of the most common questions we get about this area concern the 3 Musty

Fears, the Fears reside in the bottom-right rooms on the lower level of the town.

If you use the Large Lamp

and stary the right in your room, the Fears will appear to you in a dream and ask you to play a game of Find the Flag. If you uncover all three flags, the Fears will award you the Ghost Medal, which will double the wearer's Defense and Magic Power.

The Greater Flag is behind the welcome sign in Rose Town, the Dry Bones Flag is under the bed in Mario's Pad and the Big Boo Flag is on Yoshi's Isle, between the letters "O" and "A" on the race track goal line. Happy hunting!

## The Locked Door

The Locked Door (the middle door on the lower level) is another oft-discussed feature of Monstro Town. This is another case of several different items and situations intersecting at one point. To unlock the door, you must first buy some Fireworks from the Moleville Item Shop. Leave the shop and go up and right to find a baby male wearing a

If you defeat him, you'll be awarded the legendary Quartz Charm, which protects the wearer from fatal attacks, multiplies your Attack ratings by a factor of 1.5 and doubles your Defense ratings.

## Grate Guy's Casino

Like so many of the situations in SMRPG, finding Grate Guy's Casino is the result of several sequences of events that are easy to miss. If you'd like to get a membership to this exclusive establishment, you must return to Booster Jewer something after you've rescued the Princess.

Retrace your route through the tower to find Knife Guy in the room just before the first Save Point. Play his guessing

game until you've won 12 times (any losses will be subtracted from your wins). Knife Guy will then give you the Bright Card as a prize.

Continue through the game until you reach Bean Valley, if you haven't already. From the beginning of Bean Valley, walk up and right, then hop down the green pipe on the right. Work your way up and left and enter the next green pipe. Walk up and left to the next screen. You should now see five green pipes growing out of them and a Save Point. Wait for the Slyster to water the uppermost plant, then defeat it. Hop down the open pipe.

items that will inflict about 100 HP of damage to all enemies in battle. That's not a bad take for a single evening's work, wouldn't you say?

# MIYAMOTO

In August, Famitsu 64, a Japanese gaming magazine, interviewed Mr. Shigeru Miyamoto regarding the N64 and upcoming games for it. This month, we're letting you listen in to hear what he has to say about the future of gaming.

**Ed.:** When did you start planning Super Mario 64?

**SM:** I'd had the concept for the game for a long time but didn't write the specs for it until just before Shoshinkai last year. I had wanted to make games using polygons even before the Super Famicom was released. Of course, polygon graphics originally didn't work well with the Super Famicom. When the FX chip became available, I tried and tested polygon graphics many times while making Star Fox and Wild Inax [Stunt Race FX in the U.S.] and slowly constructed basic ideas about using them. It was about three years ago when I finally understood what specs were needed to move a certain character or object. I was finally able to visualize the N64 at that time. Then it took another year and a half to translate to N64. In the beginning, we weren't sure whether or not the N64's specs and abilities were real.

**MR. MIYAMOTO**

**Ed.:** So, it was about a year and a half ago that you came up with Super Mario 64?

**SM:** Yes, we made samples and tested them for the first half year; then we spent about a year in actual development and production. The development/production process took a year, but in total, it took 5-6 years for us to complete the

game from early idea to finished product.

**Ed.:** Which part did you develop first?

**SM:** We spent a year or so developing the characters and camera angles before we went into details. Mario and MIPS, the rabbit in the basement of the castle, were the only characters we had in the beginning. We used them repeatedly for testing. For example, we had the rabbit follow Mario to a mountain summit, then we changed the viewpoint there, and so on. We thought about using a different character in the basement of the castle for the final version, but we couldn't ignore the rabbit. We must say that the whole process of developing this game began with Mario and the rabbit.

**Ed.:** How did you decide what the world of Super Mario 64 would be like?

**SM:** I always decide on the basic ideas/concepts (such as Mario's moves) first, then I add other things until it takes a certain shape. After that, I start the total concept of the game. In the case of Super Mario 64, I began creating the world after Shoshinkai (November, 1995). Before that, I had only general ideas, such as what kinds of monsters we wanted, and that there would be no blood. Ideas such as the structures of courses or hanging pictures on the walls in the castle came up later.

**Ed.:** So you started with Mario's actions, or movements, when making the game?

**SM:** Yes, they're the core of this game. Mario's actions came first, then we made the courses that fit his movements.

**Ed.:** There are lots of actions and moves in the game, but some of them are not necessarily critical to defeating enemies or clearing obstacles. Did you put them in on purpose?

**SM:** The leg sweep, trip move was supposed to be a useful skill at first. It could be used to knock bamboo poles down or to defeat Goombas. There are lots of things I planned, but of course, not everything came out exactly as I wanted. I just wanted to create as many moves as possible that could be controlled with a combination of the Control Stick and buttons, not only for a practical purpose but also to have fun while playing. A player may discover a new one as he plays and say, "Whoa! I've found a cool move!"

**Ed.:** Yeah, and controlling the moves isn't very complicated, is it?

**SM:** Basically, only the A and B Buttons are used in the

game for control. Other buttons are not necessary for game play, but they are quite handy once you learn to use them. I spent quite a bit of time coming up with the functions of the C-Buttons. I wasn't sure how I should set the C-Buttons: Should the camera angle move to the right, or should you see Mario's right side when you press the right C-Button? In the end, I set the C-Buttons so they work like the controls of an airplane. The camera zooms in when you press the top C-Button, and it turns to the right when you press the right C-Button.

**Ed:** Regarding the viewpoint, there are places where the player can't see, such as in narrow areas. Do you think it's a problem?

**SM:** The N64 may be the only home machine that can cre-

## SUPER MARIO 64

ate a correct, three-dimensional view, no matter which direction you're looking. Because of this ability, Mario cannot be seen when he's behind a wall, and this agrees with natural physical law. It wouldn't have

been right if we had changed the settings so that Mario could have been seen through the wall. On the other hand, if we had set the viewpoint to shift each time Mario moved, it might have been quite confusing. I believe we have done everything to get the best possible viewpoints.

**Ed:** Will the viewpoint be improved in the future?

**SM:** Of course we should improve it to a certain degree, but we can't do much with the things that are physically

correct. We can only suggest that players move around or stop for a better view.

**Ed:** What differences, other than the language, are there in the Japanese and English versions?

**SM:** In the English version, characters speak much more than they do in the Japanese version.

**Ed:** Where did you add voices in the English version?

**SM:** For example, you'll hear Mario's voice say, "Here we go!" when you enter a course. Also, Peach talks during the final scene. I wish we could sell this version in Japan for the one-year anniversary or as a Christmas special. But, realistically, I don't think we can sell the English version in Japan, since so many players already bought the Japanese version as soon as it was released.

**Ed:** By the way, do you make changes in the American games to fit the Japanese market?

**SM:** We translate the main English to Japanese, and basically, that's all. Of course, there are some games, especially sports games, that we make some changes to in order to sell them in Japan. If we released Ken Griffey Jr. Baseball in Japan, we would need to make minor changes, like adding scenes and the sounds of fans hitting bells and drums to make it fit better in our culture.

**Ed:** There are more puzzles to solve in Super Mario 64 than in other Mario games. Why is that?

**SM:** I was also developing Zelda 64 while I was working on Super Mario 64, and I had lots of ideas for Zelda. Since Mario was going to be released earlier, I used some of those ideas in it. I did the same thing when the Super Famicom versions of Zelda and Mario were being developed. I switched ideas between the two games.

**Ed:** Is Zelda 64 going to be similar to Super Mario 64?

**SM:** They resemble one another in some parts. Of course, about half of Zelda will be completely different.

**Ed:** Are the characters in Zelda 64 going to move around in 3-D fields like the ones in Mario do?

**SM:** Yes, in some places.

**Ed:** So, will Zelda 64 be like an RPG of Mario with a sword?

**SM:** No. I'm sure everyone would complain if we did that. They'd think that Zelda 64 looked too much like Super Mario 64.

**Ed:** Then what makes *Zelda 64* different from *Mario 64*?

**SM:** I can't say anything yet... Well, the camera system...

**Ed:** We saw the video of *Zelda 64*. Have you made many changes since that video?

**SM:** Yes, scenes in the final version will be quite different from those in the video, but you will still see some scenes from the same angles that you saw in the video. We aren't sure if it's the best angle for actually playing. It's possible to make demo scenes from that angle—they aren't difficult to create. By the way, some people thought that the demo scenes at Shoshinika were playing on development equipment, but they were actually playing on the N64.

**Ed:** We were shocked when we saw that demonstration video.

**SM:** What parts of the

video were most amazing to you? Were you surprised by the shining, metallic-looking soldiers?

**Ed:** I couldn't believe that those amazing characters were in the actual game. I thought images like those were possible only with development equipment.

**SM:** But you saw them actually move in the video. You might have noticed the soldiers stop for a moment just before making a move, such as just before swinging a sword. Their action didn't look natural because of those brief breaks. We need to adjust this problem in the final version.

**Ed:** Regarding *Wave Race 64*, why did you make such big changes in the watercraft? They're very different from the ones we saw at first.

**SM:** Before *Shoshinika*, we concentrated on making the water as realistic as possible on the screen, and we concentrated on the vehicles after the show. Although we used boats in the video, we decided on jet skis later. Boats looked pretty good at the show, but I didn't think that *Wave Race 64* would be unique from similar games on other systems if we used boats. Jet skis can show many maneuvers that work well in the realistic water of *Wave Race 64*.

**Ed:** How is *Star Fox* coming?

**SM:** Everything is going well. That game is, no, I must not give anything away. Well, its graphics are sharp and clear.

**Ed:** How about the player's vehicle? A tank was used in the *Shoshinika* video.

**SM:** Player's vehicle? I shouldn't make comments on this... I can only say that the tank is a player's vehicle...

**Ed:** Everyone is really looking forward to seeing Super Mario Kart R. How's it going?

**SM:** We are working on high-speed processing and other technical improvements. We want to design this game so

that users can play in four-player mode as well as in one-player mode.

**Ed:** The video version looked nearly complete. Do you still need time for adjustments?

**SM:** Yes, that's one of the reasons we're still working on it. We are also spending time creating different driving styles. The Control Stick will control the cars, and the cars in this game will run very differently from one another. Some cars have very touchy handling, while others have straight-forward handling. We're also spending lots of time on the characters, like changing Donkey Kong to Super Donkey Kong.

**Ed:** Regarding the control, is the Control Stick just for handling the wheel?

**SM:** Well, I can't tell you. How to use the Control Stick is the most critical part of the game, but, again, I can't tell you...

**Ed:** Almost all of Nintendo's new games, including *Super Mario 64*, use polygon graphics. Are you going to use polygon graphics in your future games?

**SM:** One of the major reasons that I wanted to develop for the N64 is that it makes it possible to draw precise, realistic 3-D images and scenes. The video world will not expand without accurate graphics and scenes. For that reason, we will be using polygons more in designing games.

Quality per pixel of a picture is very high, so even 2-D games look totally different. Pictures can also be reduced or enlarged without any problem.

Development of Super Famicom games depended on the specs of the hardware. We needed to know how many sprites were available on the hardware. On the other hand, that made it easy to create a game. But the N64 is programming-free hardware. A designer can create whatever he wants without worrying about sprites or cells.

Unlike programming for the Super Famicom, we don't have to consider the specs of the hardware when making 2-D games for the N64. Designing games will depend

on what the programmers do. They can use the N64 to do whatever they want, such as morphing.

So we may see games that make us wonder how they were created. The N64 is really an interesting and exciting machine. In some cases, 2-D images created on the N64 may be more interesting than 3-D graphics. We can create high quality and cool 2-D graphics. Right now, we're making Yoshi's Island in 2-D.

**Ed:** Nintendo released Yoshi's Island for the Super Famicom after Donkey Kong Country. The graphics for Yoshi's Island were, by contrast, softer and more pastel.

**SM:** Yes, you're right. Regarding the release of Yoshi's Island

for N64, we want to wait at least six months after the release of Super Mario 64 to release it.

**Ed:** What do you think about connecting the N64 to a network system?

**SM:** Networking is one of the important ideas in the long run, but I don't think that we need to discuss a long-term plan with consumers right now. Frankly, it wouldn't be interesting in networking right now if I were a consumer. Why do we need to worry about things that might be available in the future? We should consider networking when it becomes truly available. I believe that recent debates on networking

are discussed primarily to profit hardware manufacturers and stores. It's like the multimedia boom—we

may get extra telephone lines for networking in the future, but it isn't realistic in Japan right now. I am more focused on simultaneous multi-play.

**Ed:** What about 64DD?

**SM:** You will see it at Sho'hinkai in November. I can't say anything else right now.

**Ed:** I heard that the 64DD uses a writable disk. If that's true, how will you use it for the upcoming Zelda game?

**SM:** That's a top secret.

**Ed:** How is the controller Memory Pak used?

**SM:** It can be used as an optional accessory. You can use the Memory Pak for backing up certain game data. Of course, the 64DD will be used for back-up in the future, too. I am hoping that players use the Pak to save their personal data for sports games, then play together. That will be fun.

## WAVE RACE 64

experienced a while ago. Networking N64 will be realistic when the N64 is in about five million households.

Anyway, Nintendo hardware can be easily applied to a network at any time.

Japan is not ready for a network yet. Regular households have only one telephone line. If a gamer were occupying the phone line with the network, other family members wouldn't be able to use the phone. We'll have to wait until the government takes the lead in networking or until the household environment is ready for a network.

**Ed:** I understand that it will take a while until networking will be widely accepted.

**SM:** I am looking forward to that day. Some households

## A message to readers from Mr. Miyamoto:

Isn't it a great feeling to complete courses, or to discover secret shortcuts? All players like to discover tips and figure out new ways to do things. It's the same all around the world. Figuring things out in games is common ground for players everywhere. It's possible only in the virtual world, and that's what we want to create with the N64.

The N64 enables us to create completely different scenes and new games that no one has ever experienced before, and we're working hard to do that. Even if people see what we've done and say that it's not a game, we want to continue to create new experiences, things that people haven't seen before. We're going to produce many excellent games for the N64.

I assure you that you'll never regret buying an N64! Please look forward to it.

## POWER GOES INSIDE EAD

Last summer Senior Editor Leslie Swan went to NCL in Kyoto to work with Nintendo's exclusive EAD group on the English version of Super Mario 64. She wrote the English screen text, then had her voice recorded and digitized for the game. (She's Princess Toadstool.) "They asked me to sound 'sweet,'" she said. "It was a stretch."

Her impressions of Mr. Miyamoto: Interesting, creative, busy. "He's directing several projects at once, and he oversees even the smallest details to make sure that they're right. But as hard working as he is, he also has a fun, creative side. He likes music and plays in his own band. When it came time to take a break, he'd get out his guitar and play right there in the office."

## NEW KOMBATANTS

Williams has also expanded the roster of selectable fighters from 15 to a whopping 24 characters, including the new and classic versions of Sub-Zero, the dark and deadly Noob Saibot, formidable newcomers Ermac and Rain, and the ever popular human version of Smoke. We expect that many of the fighters' special moves will remain the same, making it easy for long-time fans to jump right into the carnage!

With so many new combatants to choose from, this revised MK should make for some very interesting matchups.

Now you see him, now you don't! There he is! Ermac's explosive teleport punch is just one of his deadly tricks.

Don't let Rain's basic fireball attack fool you. There's more to him than meets the eye!

### KOMBAT CHART

Do you need a scorecard to tell you who's who? Here's a list of all the selectable UMK 3 fighters and the games they've appeared in previously.

### BRUTAL!

Of course, no MK game would be complete without a full range of Fatalities, Babalities and any-other-aliases that the programmers can cram into it, and UMK 3 doesn't disappoint. In fact, there's a new category of finishing move taking a blow in this Pak: the Brutality! The Brutalizing player unleashes a flurry of punches until his or her opponent explodes in a spectacularly messy way. We'll update you on this and other fatalities in UMK 3 in a future issue!

Disney's

# Pinocchio

**From the Silver Screen  
to the Super NES**

Disney's film Pinocchio has long been a family favorite, and now a generation of gamers will get to experience this classic in a whole new way! With Pinocchio's near-cinema-quality graphics and terrifically fun, yet simple, game play, younger would-be puppet masters will become instant fans of this fine and timeless fable. Folks who have already fallen in love with the film will be pleased to know that many of the cartoon's other characters, including Honest John the fox, Geppetto, and Jiminy Cricket, all make special guest appearances in the game.

## Ten Challenging Chapters

Pinocchio for the Super NES closely follows the movie story line about a puppet who hopes to someday become a real boy. The story unfolds in ten separate levels, and each chapter of the tale has its own distinct look and style of play. As players progress through Pinocchio, they'll need to master a different set of moves for each stage of the game. For example, in one stage they'll need to mimic the dance steps of some nimble marionettes, while in another, they'll have to grab tuna tails to avoid winding up as a whale's lunch!

### Shipping School!!!

As the game begins, players will have to help Pinocchio get to school by picking a path across the streets and rooftops of a tiny town in Italy. Unfortunately for Pinocchio, Gideon the cat and a fox named Honest John have devious diversions in store for him.

### Playtime on Pleasure Island

Thinking that he's found a boys' paradise on the shores of Pleasure Island, Pinocchio will take a trip on a big, bright balloon and go for a wild ride on an old, rickety roller coaster.

### The Coachman's Clutches

In order to escape the life of a mule in Pleasure Island's salt mines, Pinocchio must carefully climb the island's rocky cliffs, where he'll fight the evil Coachman and his creepy cohorts.

### A Whale of a Time

The last few levels lead Pinocchio through a watery world where all the creatures of the sea seem to have a grudge against him. If you've ever wanted to see the inside of a whale, get ready for a grand tour!

# NBA HANGTIME

© 1995 Williams Entertainment

Williams is pounding the boards and shooting from downtown to bring you the Super NES version of their latest arcade sensation, NBA Hangtime!

## NBA HANGTIME SCORES BIG TIME!

If you spend any time in arcades at all, you can't have missed the long lines and anxious stares of people waiting to play NBA Hangtime. Now Williams is bringing one of the biggest quarter-munchers in history to the Super NES, and if the early prototype we sampled is any indication, NBA Hangtime will be poised to change the face of platform basketball games. All of the features that have made NBAHT an arcade phenomenon are already evident in the home prototype, including the beefed-up AI, the realistic speed and movement of the players across the court and their true-to-stat performance. The Super NES version

will also retain the "Create a Player" option, complete with cash card-style "PIN" ID numbers that allow you sole access to your player!

The computer-controlled partners and opponents in NBA Hangtime are much more creative and unpredictable than those in any previous basketball game.

You'll have a lustrous roster at your beck and call: 29 pro teams, 145 real NBA players and a choice of 20 special combinations per team!

Call your personal player off the bench by inputting your name and entering your secret PIN number. You can pump-up your dawning ability, 3-point percentage and other stats by winning games.

# WOULD YOU LIKE TO SWAP HEADS?

How would you like to play pro basketball with green skin and a lizard's head? Or be seven feet tall but only a measly 200 pounds? You can be all that and more with the innovative and uproariously funny Create a Player option. Serious or silly, you can set every one of your player's attributes, even down to the uniform color, nickname and special chest options! For every game you win, you'll receive two points to add to your skill ratings.

Remember that your looks are only skin deep! Even if you choose the old man's head, your abilities won't be affected. It's what's on your stat sheet that really counts!

You can show your true colors to the world! Choose from 29 pro uniforms, 10 custom designs, and a single default outfit.

Players can have up to two chests activated at one time. The Super Rebound and Smarter Drops options can really give you an edge in play.

## HANGIN' WITH MIKE RUBINELLI

Any video basketball fan would likely point to NBA Hangtime's incredible AI as its key feature. The computerized players are much more creative than what we've seen in past basketball games, but they also don't perform super-human feats constantly. We spoke with Mike Rubinelli, Williams' Vice President in charge of Third Party Development, about the philosophy behind the design. "We wanted to make Hangtime more true-to-life, but also fun to play," he said. "The players in Hangtime are true to their ratings. Maybe there's been too much sports fantasy before this, but Hangtime will make people look more closely at personal decisions." Mike cited passing as one area in which past games have been fairly forgiving. He assures us that in NBAHL, you'll have to work for your money. "The ramping is subtle enough to allow you a certain amount of success, but against better or more creative players, you're going to get picked off. That's the challenge. That's the fun!"

To keep players from becoming too powerful and unbalancing the play, the game limits the number of points you can earn and the number of skills you can max out.

In Titus's new Super NES offering, you'll have just 73 minutes as the game clock ticks down to help a dethroned prince recapture his crown. Hot-foot it through scorching sands and booby-trapped temples—15 levels in all—to find and confront the nefarious Jaffar, who stands between the Prince and his throne.

## Stage 1 RACING ACROSS RAMPARTS

Threatened by a sinister impostor, the young Prince is forced to flee the palace while guards follow in close pursuit. The fighting will be fast and furious, so while the Prince is

racing across the rooftops, he should never be scumpled down to deal with any sudden, and deadly, surprises.

To avoid being craved off the precarious edge of the palace, the Prince must anticipate the sword-wielding guard sneaking up from the right side of the entrance.

After crawling through a high palace window, avoid being showered by an incoming sastry by quickly appearing to the left and drawing your scimitar.

Without dilly-dallying or slowing down for swimmers, sail across the dock and make a last-minute leap for the stern of a saavy ship.

This long leap is here to save the Prince fragling from his frustration, but make sure he doesn't get so ho-ho if he has such luck at the beginning of the game.

## Stage 2 THE SECRET OF THE STONES

The sub-structure of a hidden shrine, the Prince stands on a distant shore where five large stepping stones are floating on a pool of quicksand to the left. The Prince

approaches them with care, for each stone is hidden beneath that's blocked by a boulder. The single secret to stepping on the stones is to hold the one with the symbol.

EXIT

START

The plain stones don't sink and hold you're squeezed off them, and if you leave the one with the symbol for hold it will simply sink to the bottom.

## Stage 3 CREEPING THROUGH CAVERNS

In the long labyrinth, the Prince can choose between paths to two separate exits, both leading to the same starting point in the next level. To the left lies the shorter path, which takes less time and offers fewer obstacles. The space to the right presents greater problems but also offers up two powerful potions.

There's a healing potion sitting up here, but you may do yourself more damage if you're not as quick as the pteryx creature can actually repair.

To open the gate, step to the right side of the hole and turn back to the left. The floor will fall out, the door will open, and you'll hang safely by your fingertips.

It's up onto the platform on the left and break away pieces of floor so that they land on the pressure plate below. Reversing the floor will hold the exit open.

HEAL INCREASE LIFE DECREASE LIFE REVERSES CONTROLS

Keep your bony opponent near the center of the bridge until an earthquake makes it collapse. Now slide around quickly to the left, and hang on for dear life!

To open the gate that leads to an important passage, step onto the right side of this crumbling ledge, then immediately step back to the left.

## Step 6 A CRUMBLING KINGDOM

Having barely escaped the Governor, on the back of a magic carpet, the Prince now stands amidst the ruins of an old and decaying city. While not certainly aware of the new dangers and pitfalls that lie ahead (especially since he lost his precious scimitar), he also knows that in order to complete his mission, he must proceed on the previous path.

Platforms hidden within the palace walls can carry you to a narrow opening, completely closed past its entrance and back.

If you can't reach past the marker, you will find only a disconcerting pattern and a bottle of poison, no rewards for losing this race.

The old sorcerer that lives in the tower of this room has deviously made better days. Luckily for you, it's still cheap enough to do a great deal of damage.

## Stage 7: A SLITHERY STAGE

In this level of the decaying citadel, the Prince is bound to have some close encounters with the slithery kind! It's very important to keep in mind that those sinister snakes can finish you off with a sim-

ple strike, trying to hold them in "safety" cells. We won't have to figure out some clever strategies for avoiding these deadly fangs.

When you reach the start door, run to the right and climb up on the ledge. Now dash across it, drop down on the pressure plate, and crawl back under the blade.

One of the level's greatest challenges is making the enormous loop across this chasm. Try to begin your running jump from the far left side of the screen.

In this passageway, it's no problem to jump past the slithering serpent, but you do have to be very careful to avoid the blade trap that's just beyond it.

## Stage 8: A HALL FULL OF HOTHEADS

Like all the other levels in this deserted kingdom, this stage has terrors and traps around

every turn. But what sets this section apart is the long hall full of fiery heads that will try to fry you before

you reach the exit door. Luckily, there's little to fear from these flaming fiends.

While you can find several beautiful breath pointers along this hallway, the first battle holds only a mouthful of bitter poison.

You have two choices as you head down the path: You can either fight every fiery fiend that you encounter, or you can run by them all and sneak out the exit.

## STAGE 9: FAR FROM FINISHED

This final run through the ruins will lead the Prince down a path to exotic locales, surreal surroundings, and

a final fight with Jaffar! If you can get the Prince past the flaming ghoul and uncover the secret of the statue at the end of this diff-

cult stage, you may actually be cunning enough to complete the six levels that are still to come!

Try to time your leap so that you don't end up on the lower ledge. If you have to climb up, you'll be injured when the ledge above you ceases crumbling down.

When you start this stage, a large, lower area will come up as you walk to the left. Unfortunately, exploring this lower level will reveal little of value.

Leaping along these crumbling columns will require lots of practice and plenty of patience, but you'll be well-rewarded for picking this tough upper path.

If you find this blade trap in the lower passage, you'll want to jump as close to the trap as possible to avoid the viper that will soon appear on the screen.

If you want to fight the ghoul on solid ground, just draw your weapon, take a few slow steps backwards, and wait for it to fly down to fight you face-to-face!

You may think this tunnel is trouble when you spot the serpent and the blade trap on the other side, but it's actually a sneaky way to the end of the stage!

START

To reach the gate, crawl past the blade, pass the pressure plate, and carefully crawl back. Now leap off the ledge, making sure that you miss the plate below.

## MEGA MAN X3

### Chip Enhancer

In Mega Man X3, the Blue Bomber's special abilities can be supercharged with special Enhancement Chips from Dr. Light. Normally, you can carry and use only one chip at a time, but there's a special Chip Enhancer that will let you use all four at once. To find it, you must have all eight Heart Tanks, all four Sub Tanks, the four Robot Suits and the Dash Boots, Mega Buster, Armor and Sensor/Helmet Upgrades. Now make your way through the first stage of Dr. Doppler's Lab until you reach an area where spiked metal balls are raining down. Jump into the pit and slide down the left side of the shaft until you come to a secret tunnel. Go left to meet up with Dr. Light. He'll give you the Chip Enhancer and all four Enhancement Chips! You can't use Zero to get to the room, and all your tanks must be full for Dr. Light to appear.

Make sure all your Heart Tanks and Sub Tanks are full.

Slide down the pit and press Left to find the secret tunnel.

The doctor will upgrade you with the latest tech.

Your robot body will glow with newfound power!

# SimCity

## Extra Landforms and Clear Data

To mark the rerelease of this Super NES classic, we printed a detailed review of *SimCity* last issue, including the millionaire code. This month, we'll tell you how to clear data from your game and access hidden land forms. To clear all saved cities and reset the scenarios, press L, R, Select, Start and B simultaneously on the title screen. If the 1,000 standard landforms aren't quite what you're looking for in a city site, there are 1,000 extra landforms hidden in the game. To access one of the hidden landforms, start a new city but don't build anything. Wait for at least 15 seconds, then go to the Load/Save screen and select the Go To Menu option. Don't save your game. Now start another city. When the Map Select screen appears, the map number displayed will be the same as the one you chose previously, but the landform itself will be different.

Follow the instructions given to save this landform.

...into this one. All of the extra landforms are unique.

## PANIC BOMBER

### Stage Passwords

In Volume 85, we gave you a special password for a "bosses only" game. Now we have passwords to the regular stages. Bombs away!

**Sinister Forest**

Enter these passwords in normal.

And whatever you do, don't panic!

## Romance IV of The Three Kingdoms Wall of Fire

### Free Soldiers

This trick allows you to create as many extra soldiers as you'd like for free, without drafting! Choose the War command and select one general to go to battle. Assign the maximum number of soldiers possible to his unit (up to 300, if you have that many men), but say "No" when the computer asks for final confirmation to go to war. Take the general off the list of commanders then reassign him to it. When you return to the soldier assignment screen, the total number of men available will have increased by the number assigned earlier. Repeat this process until you have the number of men you want. Now you may select as many generals as you want to go to war and give them up to 300 soldiers each, if you are victorious in battle, the soldier "clones" will remain in your service. If you retreat or are defeated, they will disappear. Do not return to the main menu at any time during the cloning process or the extra men will vanish. If the number of men you take to war exceeds the number of men you originally had in the province, the attacking province will have no soldiers once the battle is over, regardless of the number of clones left behind.

You can create as many soldiers as you like.

You must win the battle for all of the clones to take effect.

Clones will have the same skill levels as the originals.

Use clones to bolster your defenses in other provinces.

## JUNGLE STRIKE

### Men Lives and Best Co-Pilot

We printed special passwords for Campaigns One through Six back in Volume 80; these passwords will take you through to the final mission. They'll give you the maximum number of lives allowed (253) and the option to use Wild Bill, the best co-pilot in the game.

Campaign 7: 8B45MP8YNMPT

Campaign 8: 8B45YP89NMPT

Campaign 9: 8B45FP8VNMPT

Enter these passwords as usual.

Now you're really loaded for basic. Loach and load!

## Stunt Race FX

### A New Perspective

To get a new perspective on your racing, press Select and the L and R Buttons simultaneously at any time during a race. The game "camera" will float at a distance, showing your vehicle from different angles.

Navigating will get a bit dicey, especially in the turns!

Press Select again to return to the regular game views.

# Classic Codes

## Player's Choice Spotlight

Two more Masters from the past are joining the exalted ranks of the Players' Choice series: Mega Man: Dr. Wily's Revenge for the Game Boy and Super Star Wars for the Super NES! In honor of their rerelease this fall, we've put together a slew of passwords and codes for these classic Paks. If you weren't lucky enough to get your mitts on these puppies the first time around, here's your chance!

## Passwords Galore

The first four stages of the game can be completed in any order, but we recommend defeating Fire Man first, then Cut Man, Elec Man and Ice Man. The passwords for that sequence are given in the column to the right. If you prefer a different route, you can use any of the passwords below to get a one-stage jump on your robotic competition.

MM-DWR was the first Mega Man title for the Game Boy, and it's still one of the best.

Take the cruel Cut Man down a notch or two with this password.

Elec Man will be history right from the start if you plug in this password.

When you enter this password, Ice Man won't have a chance against Mega Man.

With this password, Fire Man will be history, and Cut Man will be looming large!

Use this password to jump to Elec Man's stage. Don't take any static train rides!

It's time for Ice Man to have a meltdown, so punch in the password!

Watch out for the invisible Cut Manes and Shielded Soldiers.

This stage is mainly vertical. Be careful of the floor plastered along the shafts.

Many of the blocks are rigged to melt out from under your feet, so keep moving.

...but you'll have to plow through a few more menacing mechsoids first!

## SUPER STAR WARS

### The Force Will Be With You...Always!

With *Shadows of the Empire* for the N64 right around the corner, the re-mastered *Star Wars: The Special Edition* slated for release next year, and the new "prequel" films to come after that, *Star Wars* mania is once again at a fever pitch! *Super Star Wars* became an instant hit when it first hit stores in 1992, and we fully expect history to repeat itself this fall.

### Debug Menu and Invincibility

This two-part code gives you access to a debug menu and gives you invulnerability in side-scrolling stages. First, turn your Super NES off then on. When the "Start Game" box appears, quickly press A, A, A, A, X, B, B, B, B, Y, X, X, X, X, A, Y, Y, Y, Y and B. Once the game starts, you can clear any stage by pressing Start on Controller II. To access the debug menu, press L and R simultaneously on Controller II. To become invincible in side-scrolling stages, press and hold Select, A, B, X and Y in that order on Controller II, then release all the buttons simultaneously.

The code must be entered quickly if you do it correctly, you'll hear a Jawa screen.

Use Controller I to change any of the options on the debug menu.

You can select any stage or character and increase your health or number of lives.

Invincibility lasts until the end of the stage. You can still fall to an untimely demise!

### Extra Continues and Light Saber

If you want some help battling the Empire but still want to preserve most of the challenge, then use one or the other of these two codes. These codes can only be used alone and will not work if any other code has been entered. Be sure to turn your Super NES off then on before you enter them.

When the "Start Game" box appears, quickly press X, B, B, A and Y.

You'll start off the game with five continues instead of the usual three.

When the "Start Game" box appears, quickly press Y, Y, X, X, A, B, X and A.

You'll start your adventures with your Light Saber already in hand!

### Sound Test

Last, but not least, is the Sound Test code. Anytime during the game, press and hold A, B, X and Y, and then press Start to make the Sound Test screen appear. Use the Control Pad to select different music themes or sound effects and press A, B, X or Y to play them.

Use Controller I to play your selections. John Williams's music sounds terrific!

Press Start to get back into the action. The Death Star awaits!

## SEVEN WAYS TO PLAY

If the name of your game is variety and high replay value, Tetris Attack fills the bill. Choose one of seven different ways to play. One-player mode has five different games, and two-player mode has both Vs. and Time Trial games. If you're looking for a tough challenge, you can alter the options in many modes. Make it hard on yourself and crank up the game speed or bounce between one of the three difficulty levels.

## ONE-PLAYER

## ENDLESS

How long can you last against an eternity of lowering tiles? Endless mode is a grueling endurance test. When the tiles stack up and the game ends, a Result Screen will tally the number of combos you scored.

## TIME TRIAL

How many tile chains and combos can you create and clear in two minutes? Time Trial mode is a timed stage with three difficulty levels. If you want to score big, shoot for large combos and chain reactions.

## STAGE CLEAR

The tiles quickly pile up, and you need to knock them down below the blinking stage clear line. Use a big combination or chain reaction to temporarily stop the stack so you can plan your next move.

## PUZZLE

Unlike the other Tetris Attack games in which you race to flip tiles, Puzzle mode lets you pause and think about your moves.

The tough part is clearing the stage with the limited number of flips allowed.

## VS. COM

This mode is much like the two-player Vs. mode game, except that this time, you play against the computer. The Hit Point gauge on the right side of the screen shows your computer opponent's condition.

## TWO-PLAYER

Link up and attack a friend! To play two-player Tetris Attack, you'll need a second Game Boy and another game pak. Two-player modes include a handicapping option.

## TIME TRIAL

It's a race to clear as many tiles as possible in two minutes. When the last chain is dropped, the player with the highest score wins. Remember that you can earn points by just raising your stack of tiles.

## VS. PLAYER 1

Drop blocks on your opponent by linking chains and combinations of four or more tiles. A hit point gauge on the right side of the screen tells you how well your opponent is faring against your attack.

# PLAY IT YOUR WAY

Few puzzle games offer more playing variety than Tetris Attack, but with all those options some gamers don't know where to begin. Listed below are some basic strategies for racking up a stack of Tetris Attack scores. If you're looking for additional tile tips and hints, make sure you check out the Super NES Tetris Attack strategies on page 10 in Volume 87 of Power.

## ENDLESS PLAY

Endless mode is ideal for working on your scoring technique or going for an all-time high score. The scrolling stack gradually speeds up as you eliminate tiles, but you can get a running start by adjusting the Speed Level gauge from 1 to 100 before you begin the game.

## TIME TRIAL

If you're going to match the game's high score in under two minutes, you need to clear more than five tiles at a time and set off long series of chain reactions. As the tiles fall, line up matching blocks beneath them to create more chains. Tap the B Button to raise your stack near the top of the screen. The more panels you have on the screen, the more options you'll have available to make high scoring chains and combinations.

## STAGE CLEAR

While the rising stack of tiles is barely moving when you start Stage Clear, you'll soon be scrambling to keep up. Whenever you clear a four-tile combination or set off a chain reaction, the

ascending stack will stall for a few seconds. Many experienced players wait until the tiles start hopping along the top of the screen, then execute a combination or chain to stop the stack for an extended period of time. Rearrange your tiles during the stall time to create the next big chain or combination.

## PUZZLE MODE

Puzzle mode doesn't require fast flipping, but it does require plenty of thought. This mode has sixty levels, and you can record your progress by writing down the password given to you when you complete a stage. A court-

image tells you the number of moves you can make to solve the puzzle. The most difficult puzzles are not measured by how many blocks you have to clear, but how many moves you are allowed to make.

### Puzzle 3-03

Flip the lowest heart tile to the right one space, then slide the diamond tile above the heart tile one space to the right. This sets off a chain reaction that removes all hearts and drops the remaining diamond tiles down into a horizontal row.

### Puzzle 4-05

You can make only one move to set off a chain reaction and clear all nineteen tiles in stage 4-5. Slide the lowest star block on the left side of the stack to the left and watch the panels fall down. Most solutions for chain reaction puzzles are found near the bottom of a pile.

## ONE-PLAYER VS. MODE

Bowser has cast a spell over the inhabitants of Yoshi's Island and it's up to Yoshi to save the day! As you complete the stages in One-Player Vs. mode, more characters

join Yoshi in his fight to save Yoshi's Island. If you want to fight Bowser in the final round, you must complete all the stages on the Hard Game Level.

## Hit Points and Power Meter

Whenever an opponent's Power gauge is full, a block will drop on your stack of tiles. The Hit Point gauge indicates how well your opponent is doing in the game. Each time you clear a combination of tiles or set up a chain reaction, the Hit Point gauge will shrink. When the HP gauge is empty, you've won the round.

## Pick a Character

After Yoshi frees his seven friends, you can select them and use them in the final rounds. Move the Select cursor to the character you want to use before you enter a new stage. If you lose a match using any character but Yoshi, you won't have that character when you continue the game.

# 2 GAMES IN 1 PAK!

## BATTLEZONE

Battlezone © 1993-1996  
Atari Corporation

### An Early Breakthrough in 3-D Battling

Although a bit primitive by today's standards, Battlezone was a real breakthrough in 3-D gaming when it first debuted. While its wire-framed tanks and scenery may seem simple, no game of its time even approached its sense of real space, something that game companies have been striving to perfect ever since!

#### THE ZONE OF BATTLE

The game's futuristic battle-field is full of objects that can be used for offensive and defensive advantage. Hide safely behind squares, rectangles, and pyramids while you watch the enemy, then sneak out and fire a few rounds of ammo at your foe.

#### THE ENEMY ARMY

Your enemy has four types of fighting machines, some definitely deadlier than others. While the stationary ships and slow-moving tanks are easy targets, the kamikaze crafts and streamlined assault tanks are real trouble.

### The Best Way to Battle

Understanding your opponent's strengths and weaknesses is the best way to develop a strong offensive strategy. Your best defense is to keep your distance from your foes.

The slow tanks would rather fire than flee, but you'll have to do some quick dodging and shooting to survive the faster tanks' rapid shelling. The kamikaze crafts are the toughest to defeat, but just back up and blast 'em when they turn towards your tank.

## BLASTS OF THE PAST

With nearly 20 years under their belts, Battlezone and Super Breakout are still as cool as they were when they were mainstays in every arcade across the country. Now Game Boy players can pick up both of these classics in a single pak!

# SUPER BREAKOUT

Super Breakout © 1978-1996  
Atari Corporation

### The Classic Block-buster!

Not only is Super Breakout an arcade classic, but it's also an important bridge between video gaming's humble beginnings and many of the popular games of the present. With its bouncing ball and simple paddle, Super Breakout has more than a passing similarity to the old game of Pong, but as theme, the elimination of stacked tiles, is similar to Tetris, a modern gaming masterpiece!

## Block Breaking Basics

It's fine to focus on just keeping the ball in play, but you can also aim the ball by bouncing it off the sides of your paddle. To pick up the big points, aim the ball so that it bashes a path at the edge of the blocks and ricochets around the very top row.

Bouncing the ball towards the corners

of the blocks will eventually reap you big rewards, but unfortunately, your paddle shrinks in size, so you pay the price for all these added points.

## BREAKOUT

This mode is the classic version of Breakout. The objective is to keep bouncing the ball off the different colored tiles until the entire screen is cleared. Like most of the other variations, the ball speeds up and your paddle shrinks as the game progresses.

## DOUBLE

Double is like Breakout but trickier because there are two balls and two paddles in play! Thankfully, the paddles move together so that you don't have to control them separately. You can use either paddle to bounce balls, but if you miss a ball, you won't get the second one back until after you've lost them both.

## PROGRESSIVE

In Progressive mode, there are three big rows of tiles to bash, the bottom row being worth the fewest number of points. For a fun (and frustrating) twist, the tiles keep moving down and become less valuable as new rows start to drop from the top of the screen.

## CAVITY

Cavity mode, in which three balls can be activated at once, requires fast reflexes and complete concentration. You begin with two paddles, one bouncing ball, and a big row of tiles with two more balls trapped inside. Once they're freed, you'll have to work fast to keep all the balls bouncing.

Only the STRONG  
survive in the...

# ARENA

## CHALLENGE #1

### SUPER MARIO KART

Greg Pituch, Israel Knight and Mike Vollmer are a few of the ultra-hot, pace-setters that have established themselves at the top of the Arena's Super Mario Kart road rally. When will you take the lead? Can you run with the best in North America? Slide or glide through the torturous turns of Donut Plains 2 and send in your best time. Choose either Grand Prix or Time Trial mode—we don't care how you got there as long as you finish at the top of the Battle Zone. The top twenty racers will drive away with four Super Power Stamps.

### PILOTWINGS 64

Take part in the first Arena challenge for the Nintendo 64! How fast can you bust up twenty floating balloons in Balloon Rush, the second P Class test in PilotWings 64? Capturing your flying feat on film can be a little tricky, and you might have to try a few times. You need to snap a picture at the exact moment the words "Landing Accomplished" appear. The words are only on the screen for about three seconds, so make sure you get it right the first time. The top 25 times will fly off with four Super Power Stamps.

## CHALLENGE #2

### KIRBY'S BLOCK BALL

Kirby's Block Ball rivalry continues! This month we want your highest score for Stage 2. Gobble up as many tasty goodies as you can, then take a picture of your score right after you pound the obnoxious Octopus into sushi at the end of the second level. And in case you're wondering, yes, you can use a Super Game Boy adapter. The top ten scores will win four Super Power Stamps good for money or lots of cool stuff in the Super Power Supplies Catalog.

### NAME THAT GAME!

It's the ultimate game fanatic quiz! Take this quiz for fun and see how many games you can identify. Look for the answers in next month's issue.

1. It's the only sports game that features Mega Man.
2. Bombard your opponent's fortification then scramble to rebuild your own castle walls in this one or two-player Super NES game.
3. You have precious seconds to defuse the cortex bomb in your head as you wander the streets of Seattle in this futuristic game.
4. Falom and Porom are two powerful twins in this epic adventure.
5. Kough up 15 Keemcoins so Klubba will let you cross his bridge and explore part of this game's Lost World.
6. If you're a charming player, you might be able to steal the Blue Mail from the Mother Brain in this role-playing game.
7. Can Bolt Lightning strike out Frank Liberty? Step up and take your best swing in this sports sequel.

Your Power Guide To The Latest Releases  
OCTOBER 1996

## Battlezone/Super Breakout

Company .....Black Pearl  
Release Date .....September 1996  
Memory Size .....2 Megabits

Two classic arcade games come together on Super Game Boy.

Black Pearl continues the recent run of classic arcade games that are headed for release this fall. This Super Game Boy pak contains Battlezone and Super Breakout, both originally

released by Atari way back in 1979. The green, vector line graphics of Battlezone were considered to be pretty sophisticated in their day as they suggested a 3-D world. The object of the game is simple, though: You target and blow-up enemy tanks,

missiles and planes that are hunting you. Super Breakout has an even more basic premise. You have to hit the bouncing ball against blocks to make the blocks disappear. Of course, that's just for starters: if you want to clean up on either of these classic games, turn to page 90 for the world's Best Game Boy review.

Two games in one: Gem Pak. Single but involving game play.

Confusing selection screen.

## Donkey Kong '94

Company .....Nintendo  
Release Date .....September 1996  
Memory Size .....4 Megabits

An arcade classic ape-dated for the '90s.

Before Donkey Kong ever heard of Kremlings, there was a little guy named Mario who made life difficult for the big ape. Years later, the arcade game that made DK and Nintendo famous returned as the first Super Game Boy enhanced title. Now, as one of the Game Boy Player's Choice series games, Donkey Kong '94 returns again. The classic construction-area stages are just the beginning of the fun. Nintendo has packed in dozens of new areas to ball-

lie fans. Along with the greater complexity of the new stages, you'll find greater challenge, too. In all, DK has 100 areas to keep you going ape.

A \$19.99 MSRP is hard to beat. New stages and all.

Arcade style control may seem awkward.

## Lufia II: Rise of the Sinistrals

Company .....Natsume  
Release Date .....August 1994  
Memory Size .....20 Megabits

Natsume's sprawling adventure finally reaches the stores.

Last May, Nintendo Power first covered *Lufia II: Rise of the Sinistrals*, but Natsume didn't get the game out the door until recently. No epic game fan will want to miss this one, though. The *Dual Blade* is resonating and the Sinistrals see it as a sign to challenge the leadership of the earth. Your hero, Maxim the monster hunter, sets off on a quest to stop them. He will be joined by a party of characters and beasts, some of them fighters and others magicians. *Lufia II* crosses some of the boundaries between RPGs and adventures by using a number of features that you find in games such as *Legend of Zelda: A Link to the Past*. Maxim can push blocks, shoot arrows, hit switches and use other skills. The magic system varies from most RPGs in that spells can be focused on one enemy or cast on an entire group. In dungeons, the Skills feature lets you deal with foes in real time rather than sending you to a battle screen. Using a ring menu similar to the one used in *Secret of Mana*, you can choose a skill and use it against baddies or use it to solve puzzles.

A sprawling epic with RPG and adventure features. Player friendly. Good graphics. Lots of play value. Four slots of battery-backed memory.

Play control is a bit quick.

## Mario Paint

Company .....Nintendo  
Release Date .....October 1994  
Memory Size .....8 Megabits

Create a masterpiece on your Super NES.

*Mario Paint* gives users the power to create art, animation and music on their television screens. All they need is imagination. The Creativity Pak includes the Mario Paint Pak, a Super NES Mouse and a special mouse pad. Paint tools include various pens, brushes, an airbrush, fills, color palettes and the Stamp tool that lets you copy and paste images endlessly. The animation tools let you move figures along a path and cycle between frames for true, multi-frame animation like you see in cartoons. The music editor includes a variety of sounds that are placed on

the musical staff just like written notes. Every Mario Paint feature can be learned quickly, but the results can be startlingly good. In many ways, including user-friendliness, Mario Paint is more powerful than many PC paint and animation programs. If you don't have it, you're missing out on a world of possibilities.

Open-ended, creative fun. Easy to learn and use. Powerful graphics effects.

Only one picture can be saved at a time.

## Mortal Kombat Trilogy

Company .....Williams Entertainment  
Release Date .....November 1994  
Memory Size .....64 Megabits

The biggest MK of all time comes to the N64.

Williams Entertainment set out to create the definitive *Mortal Kombat* game for the new Nintendo 64. After all, the most powerful video game system deserves the most powerful MK. And that's exactly what they did. *Mortal Kombat Trilogy* includes more fighters than any other game, including special characters from previous games, including Rain, Smoke and Noob Saibot, all of whom can be accessed right from the start in this new game. The play control and moves remain classically MK in style, featuring dozens of Fatalities, Animalties, Babalties, Friendship moves and Brutalities. You can also score on Aggressor moves and Korobos. Use of the Control Stick or Cross Pad on the Controller is up to the player, along with other setup functions including music channel separation and difficulty levels. In addition to one-player and two-player vs. modes, you can play two character Vs. two characters, three vs. three or an eight player tournament mode. It's big in ever sense of the word. Nintendo Power enters the tournament this month and shows you how to score that flawless victory. At press time we learned that the game will ship in early November.

Tons of Kombatants. Excellent options. Good play control and graphics. Kombat Kodes.

If you're looking for radical differences from previous MK games, you won't find them here.

## Ms. Pac-Man

Company.....Williams Entertainment  
Release Date.....October 1994  
Memory Size.....2 Megabits

### Are you hungry for a classic arcade feast?

This classic arcade game from Williams Entertainment never looked better. Ms. Pac-Man for the Super NES recreates the mazes full of energy pellets and ghosts that once ruled the video arcades. The experience on the Super NES is pretty much the same, but Williams has added a number of options that will keep Ms. Pac-Man entertaining for a long time. In addition to the normal Arcade mode, you'll find Mini Maze mode, Big Maze mode and Strange mode (which mixes the map modes). This month's review introduces the amazing Ms. Pac-Man.

Fast, fun and simple.

Play Control is not responsive enough in Booster mode

## Prince of Persia 2

**PASS WORD**

Company.....Titus  
Release Date.....October 1994  
Memory Size.....16 Megabits

### Puzzles, traps, sword fights and the sands of time are running out.

The classic Prince of Persia format is given a new breath of life in this Super NES game from Titus. The idea is simple. You are a young, Arabian adventurer who must sneak through the sultan's trap-strewn palace to rescue a princess. Along the way, you'll battle magicians and swordsmen, solve fiendish puzzles, and probably wind up dangling on a spike about a million times. Prince 2, like the original game, is unforgiving if you make one false step. This month, Power will reveal the path through the peril.

Excellent emulation. Variety of puzzles and traps.

Lots of repetitive play. Play control is touchy

## Street Fighter Alpha 2

Company.....Nintendo  
Release Date.....October 1994  
Memory Size.....32 Megabites

### The original street fighting series returns for the Super NES.

Capcom's Street Fighter II series started the whole fighting game craze that has led to Mortal Kombat, Killer Instinct and a horde of tournament fighter also-rans. But there's something special about Street Fighter, and Street Fighter Alpha 2, which is being released in North America by Nintendo. It returns to the basic formula that made SF II one of the biggest names in video games. For players familiar with earlier SF II games, Alpha is

faster. It has more new moves, new characters and a distinctive comic book style of graphics that looks great. Nintendo Power started digging into this game as soon as it was completed. Now you can get the first, in-depth look in this month's review.

Fast. Fun. New and familiar characters plus Super moves.

Uneven character balance

## Super Mario Land

Company.....Nintendo  
Release Date.....October 1994  
Memory Size.....512 Kilobits

### The first Mario game for Game Boy is back in time for the release of Game Boy Pocket.

Super Mario Land for Game Boy appeared with the release of the hand-held system back in 1989. SML is a charge-straight-ahead-and-stomp-the-baddies kind of game, refreshing

for its simple approach and nice graphics. *Sorazland* may look a bit different from the Mushroom Kingdom, but players will have no trouble discovering the Coins, Stars and Superballs. Mario also uses vehicles, flies an airplane and dives underwater in a little sub. This is a great addition to the Game Boy Players' Choice series.

Four worlds and lots of fun. A MSRP of only \$19.99.

Some characters blur on the animation in some parts.

## Toy Story

Company.....Nintendo  
Release Date.....October 1996  
Memory Size.....32 Megabits

### Disney's Toy Story returns to the Super NES in 1996.

No, history isn't repeating itself and time hasn't reversed. Toy Story, one of the megahits from last year, will find its way back onto shelves this fall, thanks to Nintendo. Thanks should also

go to Disney Interactive for creating the incredible graphics and varied game play of Toy Story in the first place. In the game, players take on the role of lovable Woody, the Cowboy, and Buzz Lightyear, the brash space ranger, in side-scrolling, racing and first-person stages. Surprisingly, the game contains some fairly challenging levels that will keep expert gamers jumping for joy and leave less-expert gamers sprawling in the dust. With the introduction of the Toy Story video this holiday season, it's a good bet that demand for the game will increase. If you missed it last year, this year's curtain call may be your last chance.

Beautiful graphics. Variety of game play.

Young Toy Story fans may find some areas frustrating. Play control is awkward at times.

# PAK WATCH

## THE INSIDE SOURCE ON FUTURE GAMES

### BLAST CORPS

**S**trap on your hardhat and power up your shovel, because Nintendo's *Blast Corps* for the N64 is virtually ready to knock your door down. The development team at Rare has been making changes, improvements and adding finishing touches to this demolition action-thriller. As you will recall from earlier episodes, the maverick missile carrier is rolling across the planet, leaking radiation and ready to blow if it so much as rubs against a lamppost. But not to worry. All you have to do is climb into a special demolition vehicle and smash everything in the path of the leviathan. The latest version of the game that arrived at PAK Watch contained virtually all of the levels and vehicles. The game begins with an easy learning stage with the bulldozer, then several paths radiate out, giv-

ing players a choice of the direction they will take and which vehicle they will use next. Practice stages are included during the game to introduce you to destruction with different vehicles, which include trucks, cars, giant robots and more.

# KILLER INSTINCT GOLD

K

iller Instinct goes for the gold and gets it with Rare's extraordinary N64 fighter based on KI 2 from the arcade. KI Gold has it all—incredible speed, a gazillion cool options for every level of player, all your favorite characters from KI 2, brilliant new 3-D graphics, and play control that's as smooth as silk.

This is quality through and through. What a difference a few months can make. The last time we saw KI Gold, back at E3, the limited number of stages worked as a basic demo of the game, and didn't yet include detailed animated backgrounds or the new 3-D arenas, and revolving camera options that make KI Gold seem more like a cinematic event than a 2-D fighter. The game includes the following modes of play: Arcade, Team, Team Tournament, Tournament, Practice, and Training. Everything you saw at E3, plus more, from the special graphics effects that look

sharper on a television screen than graphics on an arcade monitor and the music is probably the best-sounding fighting game soundtrack. Next month, KI Gold debuts. Don't miss it!

# MORE TUROK

**T**he Turok: Dinosaur Hunter development team at Iguana continues to churn out some of the coolest graphics for the N64. But, although the graphics are virtually finished at this time, the word from Acclaim is that it will hold off releasing Turok until early in 1997. That news may be disappointing to N64 fans, but the reason is a good one: Acclaim is determined to add as much game play as possible. The idea is to make Turok more than a 3-D shooter. Story and puzzle elements should make Turok a true adventure. In the meantime, we thought we'd serve up the next course in the feast of graphics. Bon appetite.

# INCANTATION

**T**his is the fifth Super NES title of the fall will be arriving in stores in October. Incantation skews younger than most of the European company's titles, both in theme and play challenge. The hero is a young wizard who uses magic in a side-scrolling adventure full of beautifully drawn backgrounds and cartoonish enemies. You'll run across goblins and guardians and a somewhat confusing series of warps. Some of the warps lead to bonus areas while others take you to the next area you need to go. Your main goal in every area is to collect golden arrows.

A toll keeper collects the arrows from you before you can face the guardian of the stage. The play control feels a lot like that of Prehistoric Man, but the hit detection is more forgiving.

Again, that's good for younger or less experienced players. Another big help comes from the upgradeable wand attack. As you progress and collect Power-Ups, your wand will be able to launch a variety of fire balls and other shots. Although the simple side-scrolling action might seem a throwback to an earlier age of video games, if you're not careful, Incantation may cast a spell over you.

# BATTLE ARENA TOSHINDEN

If it's good enough for 32-bit, it's good enough for Game Boy. The popular fighting game will appear for Game Boy this fall, thanks to Tokara and Nintendo. Although you won't find 3-D graphics, you will find lots of fighting action in this four-megabit game. The Super Game Boy enhancements add to the look, but Toshinden plays just as well on Game Boy or Game Boy Pocket. Play modes include a one-player tournament and a two-player VS. match. You have eight fighters from which to choose: Duke, Fo, Eiji, Kaylin, Sofia, Rungo, Ellis and Manó, and several hidden guardian bosses are waiting in the wings, including Gala and Uranus. As in the original game, you can fight your opponent to the brink of the ring, then force them out into the void for a Ring Out! victory. Toshinden for Game

Boy features fast furious play control, classic characters and excellent graphics for the smaller screen.

# TOKYO GAME SHOW

Last August, gamers in Tokyo had a chance to check out some of the latest games, including some games in development for the Nintendo 64. The biggest surprise was the appearance of several titles from Konami, including a baseball game and an adventure that looked a lot like Legend of the Mystic Ninja for the Super NES, albeit with superior graphics. The crowded show also showcased several projects such as Blade and Barrel from Kemco, which Pak Watch introduced several months ago. Although there were few surprises at the Japanese show, several new publishers announced that they were working on N64 titles, including Japan Supply System, which is working on

a game titled Chamelon Kid. The game is still in early development, but it has some fun ideas. The kid hero, for instance, uses his super long and sticky tongue as a tool and weapon. The 3-D graphics we saw had few texture maps or special effects, but it was very early. Stay tuned for Shoshinkai this November.

## THE SPORTING LIFE

Black Pearl's connection with EA Sports continues to pay off. This fall, you'll see Super NES versions of College Football USA '97, NHL '97 and the already released PGA European Tour. The news on NHL '97 is that it will include both NHL and NHLPA licenses, increased on-ice speed, trading, full schedules, last year's all-star teams, season stats and special moves that include fighting. One new feature that looks promising is the line coaching option. You can give each line a different strategy so that when you switch lines, the new scheme takes effect.

On the Game Boy front, Black Pearl will include two titles that you've already seen in Nintendo Power: Urban Strike and FIFA Soccer '97. A third title, Madden '97 for Game Boy, will be released in November or December.

## LODE RUNNER FOR N64

Big Bang Software of Bellevue, Washington, is working on an N64 game based on the classic Lode Runner. For long-time video game fans, the name Lode Runner conjures up images of ladders, treasure and dangers. The game featured maze-like rooms through which the miner/espionage had to puzzle his way to reach the treasure or Mother Lode. In the new N64 version, Lode Runner goes 3-D, but not in the way that other titles have added depth. The viewpoint will be controlled by the game itself, with the camera shifting to give players the most dramatic or useful view. As in the original Lode Runner games, you'll be able to see the entire level, but those levels will now exist in three-dimensions and be filled with highly detailed items, obstacles and enemies. Recently we saw a quick demo at Big Bang. The game seemed to preserve the feel of the classic Lode Runner while bringing the game into the richer environment of the Nintendo 64. Although Big Bang is a relative newcomer to the development scene, the company contains veteran talent from such companies as Bullet-Proof Software and Microsoft.

## MORE NINTENDO 64 NEWS

This month's quick-takes on Nintendo 64 development include a couple of notes from Nintendo Company Ltd. in Japan, where Super Mario Kart R and Star Fox are reportedly in the thick of development. Super Mario Kart R should be ready shortly after the new year. Star Fox will follow Kart by several months.

Wayne Gretzky 3-D Hockey from Williams is scheduled for a November release along with NBA Hang Time, although these dates may shift. Wayne Gretzky is getting some extra development with the addition of the full, simulation mode first mentioned in our Nintendo Power preview. Doom 64 from Williams should be available during the first quarter of 1997. War Gods is scheduled for that period, as well.

## STREET RACER, JR.

Ubi Soft plans to release a version of Street Racer for Game Boy by the end of the year. The Super NES version of Street Racer included multi-player modes and Mode 7 scrolling for a wild ride against some pretty oddball drivers. The Game Boy Street Racer may be a bit tamer, but it should retain plenty of speed, twists and weird characters. In a related development, Ubi Soft recently went public in its home country of France. The North American subsidiary plans to expand its presence in the gaming market here.

# DARK RIFT DEMOS ALIAS/WAVEFRONT

Krones Digital Entertainment, the developer of Dark Rift for Vic Tokai, is showcasing its early N64 work at the Siggraph show in Tokyo. Alias/Wavefront asked several developers, including Krones, to demonstrate products created with Alias technology. An early look at the game graphics here at Power impressed us all. Krones, which has worked with 3-D graphics for television and interactive media, has mastered the use of special effects. Vic Tokai hopes to send us some shots for our November issue.

# WIRING INTO N64

Good news. Contrary to what Nintendo Power printed last month about the N64 containing no A/V Cable, a Stereo A/V Cable is included for easy hook-up to most modern television sets. Some owners, however, may have older TVs that require an RF input instead of A/V Cables, and the N64 does not come with an RF adapter. But not to worry. Owners will be able to purchase an RF adaptor kit at their Nintendo retailers. If all this seems a bit confusing, it won't be once you've read the N64 manual. Everything you ever wanted to know about hooking up a video game system through your TV or VCR is here in a format as concise as detail, featuring diagrams and hints.
